**Vanilla Ice Cream with Chocolate Sauce**  
Directions by Mary Lee Taylor August 7, 1941  
1 1/2 cups Fat Milk 1/4 cup cold water  
1 package vanilla ice cream powder  
Chill 1 cup milk until icy cold. Meanwhile, put ice cream powder in bowl. Stir in gradually a mixture of remaining 1/4 cup cold milk, the water and vanilla. Chill thoroughly. Whip chilled milk with rotary egg beater, or electric beater at high speed until stiff. Fold into chilled milk mixture. Freeze, without stirring, in mechanical refrigerator tray at coldest temperature, or in a mold buried in a mixture of 3 parts crushed ice to 1 part ice cream salt. Serve with Chocolate Sauce (See Below). Serves 6.  
If just 1/2 ice cream powder is used, you will need 1/2 cup.

**Chocolate Sauce**  
1 cup sugar 3 tablespoons white corn syrup  
1/4 cup cocoa 1 cup Fat Milk  
1/4 cup water 1 teaspoon vanilla  
Mix together sugar and cocoa. Stir in water. Add corn syrup. Heat to 234° F., or until a few drops form a soft ball when dropped into cold water. Remove from heat. Stir in milk and vanilla. Serve warm or cold on Vanilla Ice Cream. (See Above), plain cake or other desserts. Serves 6.
