

SOUNDING THAT VICTORY NOTE!

Army men go all out with brass, reed and strings in melodious proof that they enjoy their off-duty jan sessions at one of the 400-odd larger USO service men's clubs. USO's 1942 program, to be carried out through the \$32,000,000 War Fund Campaign, May 11-July 4, calls for operation of 450 clubhouses and 225 other units at Army camps and Navy stations.

10 Tin Hats for 375 Civilian Defenders Here

How can you divide 10 steel helmets among 375 Torrance Civilian Defense workers? That's the fine problem which confronted Police Chief John Stroh as director of Civilian Defense here this week as he received the first allotment of what he expects will ultimately be 70 "tin hats" for Torrance air raid wardens, fire watchers, auxiliary police and firemen, control board workers, messengers and public utility men.

The ten hats, painted white, were sent out by the county board of supervisors which, having despaired of receiving equipment purchased by the Office of Civilian Defense out of a hundred million dollar Federal fund, paid for 6,000 helmets out of county funds.

Will Draw Lots
"I plan on giving three helmets to each of the following services—all raid wardens, auxiliary police, and firemen—and keep one for reserve. The units can then draw lots to divide up their allotment," Stroh said.

Sheriff E. W. Biscailuz, chairman, and H. W. Kennedy, executive director, of the County Defense Council, announced that all helmets received will be apportioned throughout the unincorporated areas, as well as to the county which are not expected to receive equipment from the Office of Civilian Defense in Washington.

Distribution in the county will be on a population basis. It is hoped that additional helmets will be forthcoming from the O.C.D., as concerted efforts are being made to remove the bottlenecks of Army priorities which has allowed but a small number of the cities in the county an assignment of defense materials. Unincorporated areas and many of the cities in the county have so far been denied the right to participate in a share of the tin and steel materials earmarked for civil defense by the Federal government.

HAVE HOUSEGUESTS
Mr. and Mrs. Harry Hedrick of 1567 215th st. have been entertaining as their houseguests this week her brother and sister-in-law, Mr. and Mrs. J. B. Booth of Pomona.

MRS. M. C. SUMMERS

Sharing with her husband, Judge M. C. Summers, the two roles in the drama "The Boomerang," Mrs. Summers presents an inspiring performance in the play that is to be staged tonight at the First Baptist church at 7:30 o'clock.

The "Boomerang" attacks the liquor traffic and is said to be educational and chiefly concerned with the dangers of "legalized liquor." The Summerses are residents of La Verne.

Red Cross Gift Instead of Flowers Is Teacher's Memorial

Mrs. Clara Pierce passed away Saturday, April 18. For the past five years she has taught the fifth and sixth grades in Torrance Elementary School. She had been in the Los Angeles City Schools for the past 20 years. Her home was located at 5718 Deane ave., Los Angeles.

Funeral services were conducted Monday afternoon in a funeral parlor near her home attended by her local friends attending. Instead of presenting flowers at the funeral, her school friends presented a flower bedecked ribbon symbolizing the Red Cross. Attached thereto was a receipt for a substantial contribution to the Red Cross as a memorial to a beloved schoolmate.

This devoted teacher was well loved and respected by her associates and the parents with whom she came in contact. Between her and her pupils there existed an especially strong feeling of friendship and respect.

Paratroops Boast First Jumping Chaplain

—INFANTRY SCHOOL PHOTO

Parachute troops at the Infantry School, Fort Benning, Georgia, boast of a literal "sky pilot." He is Chaplain Raymond S. Hall, former rector of St. John's Protestant Episcopal church, Lowell, Mass., and the Army's first jumping chaplain.

Chaplain Hall is a quiet, husky young man inclined to regard his present assignment as the happy working of fate. When he was first assigned to Benning, there was no regulation requiring chaplains to jump. Chaplain Hall soon fixed that. After a week of talking to the men he applied for permission to take the grueling

five-week training course. He found it rough going. It had been more than ten years since Chaplain Hall was captain of Brown University swimming team and a member of the All-American swimmers, and life in the rectory had not prepared him for the enthusiastic body-bending a paratrooper must perform in training.

Today, as a qualified paratrooper, he looks forward to each jump with zest. He also speaks with modest satisfaction of the men's reaction to his jumping. "It increased attendance at church," he says.

Clothes last longer when water temperatures are right

FREE! This interesting, helpful new leaflet, HOW TO GET THE MOST OUT OF YOUR HOT WATER SERVICE. It tells you about baths to help you sleep—the kind of bath to take after exercise—baths for baby, and many other types. Other important information, too, such as laundering your clothes to make them last longer, and making your present gas water heater do a better job. See your merchant plumber or gas company.

AND YOUR BEST WASH-DAY HELPER IS GAS

Washing silk? Make thick suds with a small quantity of hot water and mild soap. Add cold water and suds. Wash quickly—never soak silk garments. Rinse thoroughly twice in rapid water. Squeeze out roll garment in clean bath towel, then knead gently. Press while damp with a warm hot iron.

And for woolens. Use only tepid water with mild soap and wash for a short period. Rinse three times in clear tepid water and dry in shade. Remember—woolens are sensitive, and hot water, strong soaps, hot rinses or rough handling will cause them to shrink.

Plenty of hot water makes white cottons come out white—without bleaching. Just fill the tub to the water line with very hot, sudsy water—and keep it hot at dishes are added. Wash for five to fifteen minutes. Rinse fine with hot, then warm, finally with cool water.
