At this time, it is most important for every homemaker to become acquainted with a recent government order which established "ceilings" on retail prices. The order provides that no merchant may charge more for any item (except a few commodities specifically named in the order) than the highest price that merchant charged for that item during the month of March, 1942. This order became effective on retail prices on May 18th and continues for the duration of the War, unless changed by subsequent government rulings.

The hundreds of prices printed below are a partial listing of the "ceiling" prices now in effect at your neighborhood Safeway store. Use this list as a guide toward determining food values. As in the past, it will be Safeway policy to pass on to customers in lower prices any additional savings that we may make through special buys of surplus foods, or economies in operation.

Visit your neighborhood Safeway store today and take advantage of Safeway's low prices in all departments.
