Registration for Gas Rationing Opens Nov. 9

(Continued from Page 1-A)

books containing coupons for mileage at the rate of 2880 per year. Applications for supplemental rations, which the OPA said would receive "most careful scrutiny," may be filed any time after the basic "A" book has been received.

To qualify for a supplemental ration, the applicant must show that he needs more than 150 miles per month of occupational driving, and that he has formed a car-sharing club for carrying three or more persons, in addition to himself, to and from work regularly.

If the applicant has not formed a car-sharing club, he must prove that alternative means of transportation are inadequate, and that it is impossible for him to carry others.

The government began purchasing motorists' "excess" tires today in an effort to create a huge national stockpile to keep America rolling. The Railway Express Agency will collect the tires and transport them to warehouses. Gasoline rationing limits motorists to five tires and the government will also purchase excess tires. The government will pay ceiling prices for tires purchased. Those desiring to sell their tires now should contact the local office of the Railway Express Agency at Pacific Electric depot.

Keefe of Torrance Commands Bomber on Great Daylight Raid

(Continued from Page 1-A)

England, leaving the United States last Labor Day and arriving Sept. 9. Keefe wrote his mother on Sept. 11 that he had been going thru intensive training in preparation for combat duty and was planning to spend a brief furlough seeing the historic sights of London.

The Keefers and their many friends here are now eagerly scanning the papers and listening to BBC broadcasts from England for further news of the "Liberty Lad" and its crew.

Gasoline Used In Defense Work Is Deductible

Here's good news for civilian defense workers who must use their own automobiles in line of duty.

The Commissioner of Internal Revenue has ruled that expenditures for gasoline used in civilian defense work may be deducted as contributions in computing income tax.

The opinion specifically refers to members of the United States Citizens' Defense Corps, but indicated that others such as members of the Civil Air Patrol, Aircraft Warning Service also are covered along with "any civilian defense workers appointed or acting under the supervision of a federal, state or local government agency."

Draft Chief

Selective Service Director Lewis B. Hershey, who indicated recently more than 10,000,000 Americans will be under arms by end of 1943. He also announced childless married men probably will be drafted by this December or January.

More Service Provided by New Bus Plan

Providing more trips but at the slower 35-mile-per-hour speed, a new Torrance municipal bus schedule goes into effect next Sunday, Oct. 18, according to Manager C. Z. Ward. The increased service is in answer to many demands for transportation from war workers in local plants.

There will be 15 trips to Los Angeles from Torrance daily except on Sundays and holidays when there will be six round-trip runs. The new schedule also provides service to Waverly via Torrance blvd., and Hawthorne ave., leaving Torrance 6 a. m. and 4 p. m.

Copies of the new schedule have been printed and are available on the buses and at the city hall. The new operating plan is also published in detail in today's paper.

New Dim-Out Rules In Effect Soon

(Continued from Page 1)

their sides painted to conform to the new dim-out regulation. City Engineer Glenn Jain told the city council Tuesday night that he has enough paint on hand to start the job but "we're going to do some experimenting first to determine the lasting qualities of the paint." The Southern California Edison Co. which owns the overhead intersection lights plans no "curtains" for their illumination here because they all have hoods which keep the lights from reflecting upward.

Shield Plant Lights

Such lighting will not be permitted to contribute more than one foot candle power of illumination upon any outdoor area. In addition the light sources themselves, even within buildings, must be so controlled that they are not visible outdoors above the horizontal.

The regulations require that industrial and protective lighting and light from industrial processes shall be shielded so as not to throw light above the horizontal or be visible from the sea, except in cases where production efficiency will be affected.

Motorists will find that the new amendments do not change driving conditions with the exception of authorized emergency cars. The amendments recognize the necessity of maintaining maximum police and fire protection at all times. They provide for the operation of such vehicles with normal driving lights when displaying an illuminated red spotlight.

Penalties for violating the provisions of the amended proclamation include exclusion from the territory of the Western Defense Command and a fine not to exceed \$5,000 or imprisonment for not more than one year, or both.

Week's Building Totals \$785

Building permits issued during the past week from the city engineer's office amounted to \$785.

They were taken out by G. S. Evans for an 18 by 5-foot addition to a garage at 1229 Beech ave., \$150; Mr. and Mrs. G. A. Stern, removal of a chimney and other repairs to a house at 1904 Andrea ave., \$150; Philip Lisman, 7 by 18-foot addition to a residence at 1815 West 182nd st., to be used as a playroom, \$350; First National Bank for repairs to a brick chimney at 1346 Encarnacion ave., \$60; Arthur Barnett for an 8 by 10-foot addition to a service porch at 815 Cota ave., \$60, and Joseph Ross for a neon sign replacement at 1677 Cravens ave., \$15.

A domestic postal money order service just established in the larger cities of Panama will eventually be extended to all post offices in the republic.

OBITUARY

MRS. MARY FLORENCE PEER, mother of Mrs. Laila P. Bowen and W. R. Peer of this city, succumbed last Friday night at her son's home, 1328 Anapola ave. She was nearly 80 years of age and had been in ill-health for about a month. Mrs. Peer was born in Blissfield, Ohio, and came to California in 1917 from Colorado following the death of her husband. She moved to Torrance in 1921.

Mrs. Peer was a member of the Central Evangelical church and in addition to her son and daughter here, she leaves two sons, Harry R., of Greeley, Colo., and Dr. Walter F. Peer of Brighton, Colo.; another daughter, Mrs. Mabel P. Zeller of Burbank, seven grandchildren and a sister, Mrs. Billie Lightfoot of West Lafayette, Ohio.

The funeral service was held Sunday afternoon at Stone and Myers' chapel with Rev. O. D. Wonder, former pastor of Central Evangelical church, officiating. Interment was at Fort Collins, Colo.

Missionary to Tell Of Jap Treatment

A returned missionary to China, Rev. Hammond, will speak at both the morning and evening services at the Nazareth church next Sunday, according to the resident pastor, Rev. W. A. Penner. He will tell how he became a prisoner of the Japanese at Hongkong and also of his stay in a concentration camp.

Guayule Exhibit At Library Here

An exhibit illustrating the cultivation of guayule, a natural rubber plant, and its practical application to our rubber needs, is now on display at the Torrance Library and will remain for 30 days.

World conditions and lack of shipping facilities are a constant threat to an adequate future supply of rubber, so that to meet present and increasing needs, the Inter-Continental Rubber Co., in California has engaged in growing and refining an excellent grade of natural rubber from the Guayule rubber shrub, a native of Texas and Mexico.

The population of India is 388,800,000.
