U.S. Casualties To Nov. 12 Total 48,956, OWI Says

Announced casualties of the U. S. armed forces now total 48,956, according to the Office of War Information Monday. This figure included killed, wounded, missing and prisoners of the Army, Navy, Marine Corps, Coast Guard and Philippine scouts since the outbreak of the war, but not casualties in the African campaign.

Most of the Army's casualties are classified as missing. A majority of these were in the Philippines and Java and are presumed to be prisoners of war, although information is lacking due to the absence of prisoner lists from Japan.

As of Nov. 12, Army casualties totaled 32,423, divided as follows: Killed, 1,069; wounded, 1,531; prisoners, 161; missing, 29,668. Of the missing 17,500 were American troops in the Philippines and 11,000 others were Philippine scouts. An additional 500 troops were reported missing in Java. Of the 1,531 wounded, 552 have returned to duty.

Announced Navy casualties between Dec. 7 and Oct. 31 were: Dead, 3,854; wounded, 1,190; missing, 7,972. Marine Corps: Dead, 734; wounded, 703; missing, 1,900. Coast Guard: Dead, 37; wounded, 11; missing, 128. Some of the missing in the Navy's lists are presumed to be prisoners.

Watch Where You Put That 'A' Sticker

Gasoline rationing stickers may be displayed only within a seven-inch square on the lower right hand corner of car windshields, Chief E. Raymond Cato of the California highway patrol said this week.

Cato called attention to Section 616 of the vehicle code prohibiting the posting of signs, cards or stickers on windshield, except within a seven-inch square "in the lower corner farthest removed from the driver's position."

The provision was intended as a safety measure, and the patrol chief said he would instruct his officers to see the motorists observe it.

"TOPPING" our biggest job

Santa Fe

Long ago the railroads made possible the swift settlement and development of this land.

Today they face their greatest test in the struggle to preserve it.

For this is essentially a war of rolling wheels. Millions of men, and tens of millions of tons of vital raw and finished products must be moved swiftly and surely, where and when they are needed.

Stop the wheels that move them, and we stop all that floats and flies as well.

That is why today, on the Santa Fe, movements essential to the war effort are "topping" the biggest job in our history. They must come first, beyond argument or selfish interest, on every American railroad.

KEEP 'EM ROLLIN'—OR ELSE

* No nation that does not possess efficient mass transportation can hope to win a modern war. In America that mass transportation job is squarely up to her railroads. If they fail, we lose.

Neither battle gallantry nor industrial wizardry alone will turn the tide. To meet this tremendous responsibility, we ask for every possible consideration in the allocation of materials for vitally essential repairs, maintenance and new equipment.

LET'S ALL PULL TOGETHER

As the tide of military rail travel mounts, you can help us maintain adequate civilian passenger service as well, in these ways:

* Make reservations and buy tickets early * Cancel unwanted reservations promptly * Carry least possible luggage, checking extra pieces to avoid crowding * Vacate dining cars quickly after meals * Travel mid-week, avoiding week-end and holiday rush periods.

Turn freely to your local Santa Fe representatives for help on your travel or shipping problems.
