

Community Honor Roll Has 1122 Service Names

(Continued from Page 1-A)

Tom McGuire, the speaker of the day, Col. N. F. Jamieson of Torrance, gave a rousing talk in which he deplored the attitude of many Americans in placing money and profits above patriotism in these times.

The small sacrifices citizens are asked to make by rationing and dimout regulations were, he stressed, as nothing compared to the fact that the men who were being honored by the stars on the service flag were offering their lives.

Before the unveiling of the flag by Crowther, Lee Harline, small brother of a soldier, sang "God Bless America," and the scroll was displayed with its 37 names. More names and more stars will be added and names of any men omitted are requested by the Walteria Civic organization.

Uncle Sam to Pry Deep Into Source Of Income For Tax

(Continued from Page 1-A)

also listed—just to show you how all inclusive Uncle Sam is in his tax search.

Some other queries are: Payments by former employers to draftees or those now in the armed services, deductions by your employer from your salary or wages for Social Security taxes or for hospital benefits or for pension provisions or for payment of any of your debts—and even that Christmas remembrance by your boss must be duly acknowledged—both to him and to the old gentleman with whiskers.

Bonus or other payment received on termination of your employment, intended as additional salary by your employer, a amount received for services which you performed in a prior year, income taxes paid for you by your employer, amounts received for services whose value is not determined until they are completed, payments received in a case where you had no legal right to demand, payment or where services were voluntary and without hope of pay—that's a tough one but you did acquire an extra dollar or two that way.

Better Keep Books

But that's not all. The government goes on by demanding a true account of your insurance premiums paid by your employer—if you have the right to name the beneficiary, compensation other than cash, such as notes, stock or rights, and any of the following furnished by employer for your convenience, not his: living quarters, meals, light, heat, telephone, automobile or similar expense.

You must note your daily allowance for traveling and living expenses (you may then deduct the actual costs), allowances to reimburse you for the cost of traveling from your home to the job (no deduction allowed on this), compensation set apart for you or credited to your account on the books of your employer which you may withdraw at your discretion, pension received from a foreign country, your Social Security taxes paid by your employer but not deducted from your salary or wages, and, finally, "compensation deemed 'unreasonable' by the Treasury and disallowed as a deduction by the employer."

If you feel like you've "bared all" after completing that questionnaire then you can settle up with Uncle Sam resolving at the same time to keep a more complete set of books on yourself for the next year.

Deadline for Ration Book 1 Is December 15

Persons who do not have copies of War Ration Book One—which consumers need to buy coffee—must file applications with their local War Price and Rationing Board by next Tuesday, Dec. 15.

Book One has been used for sugar rationing since May 5, and recently was validated also for the rationing of coffee. An order designating red stamps 20 through 28 as "coffee stamps" when contained in books showing the holder to be 15 years or older. The first stamp to be surrendered is No. 27, which entitles an eligible buyer to one pound at any time during the five week period ending Jan. 3.

Not only is the possession of Book One necessary for the purchase of coffee, OPA warned, but it will have to be presented to local boards around the first of the year in order to receive War Ration Book Two.
