"Man" is the Lesson-Sermon subject in all Churches of Christ, Scientist, on Sunday. The Golden Text, chosen from Romans, reads: "As many as are led by the Spirit of God, they are the sons of God."

A Bible citation from Matthew tells of a man who came, and kneeling down to Jesus, said: "Lord, have mercy on my son; for he is lunatic, and sore vexed; for oftentimes he falleth into the fire, and oft into the water. And I brought him to thy disciples, and they could not cure him. . . . And," continues the account, "Jesus rebuked the devil; and he departed out of him; and the child was cured from that very hour. Then came the disciples to Jesus apart, and said, Why could not we cast him out? And Jesus said unto them, Because of your unbelief; for verily I say unto you, If ye have faith as a grain of mustard seed, ye shall say unto this mountain, Remove hence to yonder place; and it shall remove; and nothing shall be impossible unto you."

"Science and Health with Key to the Scriptures" Mary Baker Eddy writes: "When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible. The only way to this living Truth, which heals the sick, is found in the Science of divine Mind as taught and demonstrated by Christ Jesus."

Civilian Defense Casualties Listed With Committee

Six civilian defense volunteers have been killed in line of duty since Pearl Harbor and 102 cases of injuries have been reported to the State Council of Defense, Theodore Rosequist, assistant executive director of the State Council, said this week.

"The soldiers on the battlefronts are not our only heroes. We have had quite a few right here in California on the home front, too," Rosequist declared. The figures on fatalities and casualties among civilian defense workers were given to the Assembly interim committee under the chairmanship of Assemblyman Thomas Maloney of San Francisco. The Maloney committee has concluded a two-day hearing in San Francisco on Assembly bill No. 224, which would furnish workmen's compensation benefits to civilian defense workers injured while on duty.

Lieut. Stewart And Bride Now At Florida Base

Lieut. William R. Stewart and his bride, the former Jean Hathaway of Lomita, have arrived at Avon Park, Fla., where he will spend three months in training on bombers. They were guests last week of the bride's parents, Mr. and Mrs. A. L. Hathaway of 25606 Pennsylvania ave.

Stewart, Feb. 16, received a commission as a pilot in the U. S. Army Force at Ellington Field, Texas, and the same day, in the army chapel, became a bridegroom. Four weddings were performed in succession by the Army chaplain, four new lieutenants all marrying the "girl from back home," the brides coming from Georgia, Minnesota, Missouri and California. The chapel glowed with candles, a soldier sang preceding the ceremonies and the chaplain's wife played the wedding march.

The brides all wore traveling suits with corsages of orchids and the bridegrooms were in dress uniforms donned for the first time for their graduation exercises that day.

Motorists Awaiting V-Tags Asked to be Patient—They're Coming

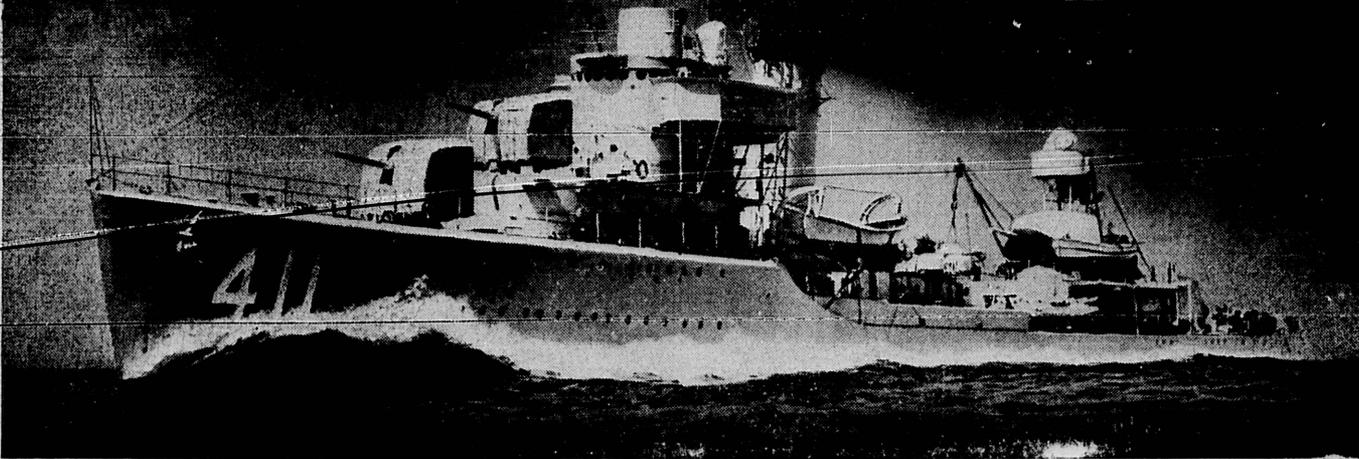

Motorists awaiting delivery of the "V" tag to be attached to California license plates in 1943 this week were asked by the State Department of Motor Vehicles to be patient and hopeful.

Approximately one million applications for license renewal were received via mail in the last week before the deadline, many of which have not even been opened as yet. Manufacture of the small tag-bearing a red "V" on a white background probably will not be able to complete delivery until the end of March, it was pointed out.

FROM ONE SHIPYARD ALONE :

5 Destroyers launched in February

Official U. S. Navy Photo

Four Destroyers were launched last Sunday by Federal Shipbuilding and Dry Dock Co., a United States Steel subsidiary, at Kearny, N. J. Total: five such ships in February. (First yard, by the way, to win the combined Army and Navy "E," which award has been renewed for "continued splendid achievement in outstanding production.")

Transports and C-2 Cargo Ships are also being built by this same speedy yard. (First yard to receive the Maritime Commission's "M" pennant for construction of C-2 vessels.)

Escort Vessels to fight the submarines and scores of infantry landing barges are going to sea from another Federal yard. This new yard, now fully equipped, was built since Pearl Harbor.

Ocean-going Tank Carriers, huge floating garages for tanks, are under construction at still another brand-new yard, operated by American Bridge Company.

And every day more fighting steel flows from United States Steel plants alone than from all the plants of Germany, Italy and Japan combined.
