NoW that you must spend ration points as well as money for meat, it's doubly wise to be sure about the quality of the meat that you buy. And you don't have to be a meat expert either! There's an easy way to make certain that every steak, chop or roast that you serve to your family is perfect in tenderness, juiciness and flavor: Just patronize the Safeway in your neighborhood. All of the meat that your Safeway meat man sells is guaranteed to be top quality, guaranteed to please.

While there continues to be a shortage of meat, it is expected that point rationing will provide a more equitable distribution of the available supplies. Visit your Safeway meat section today.

ONE SECRET OF EATING GOODNESS IN MEAT IS AGING

SELL HAS BEEN

PROPERLY AGED

Today you probably cannot buy all the meat you'd like. But all the meat you do get can be the wellaged, tender-eating kind. Let me tell you why this is good news for every housewife.

every housewite.

AGING DOES FOR MEAT, in a way, what baking does for potatoes. It makes meat tender and helps us enjoy its full natural flavor. You can start with the finest meat in the world and still get a tough steak unless there's been proper agring. Famous chefs, meat experts, and home economists insist that there is no substitute for aging in obtaining good-eating meat.

TECHNIQUE OF MEAT-AGING:
If you've evr lived in the cauntry,
maybe you know how fresh-killed
meat is often "hung" in yold storage before it's eaten. This is farmstyle aging. Modern methods are
necessarily more elaborate and
they provide for big-scale producduction. Safeway's uniqua Central
Meat Plant in Los Angales is
equipped to age and handle meat
with efficient, modern methods.

with efficient, modern methods. At this plant, as meat arrives, it is run on overhead hangers into an aging room nearly a city block long. Each carcass is given a tag which tells weight and arrival date. The meats are under constant temperature and humidity controls. Safeway experts age each kind and cut according to its special requirements. When this properly aged meat comes out of the aging room it is ready to be sent to the stores.

it is ready to be sent to the stores.

HOW TO PICK WELL-AGED
MRAT; You can't go into a butcher
shop and select well-aged meat by
look or feel. You have to ge by
what the man behind the sounter
tells you or, an even better way,
you can buy where proper aging is
guaranteed on every cut. The Safeway Market in your neighborhood
gives you this guarantee. You'll
waste less meat, and your family
will "eat" better, when you can be
sure of getting tender, well-aged
meat.
