## Bonds for Victory!

This week, and continuing for the next three weeks, the United States Government is conducting a campaign to sell 13 billion dollars worth of war bonds in the second war loan drive since the attack on Pearl Harbor.

That's a lot of money; it means that a lot of Americans—big people and little people—must respond. It calls for more than the usual patriotic response; it calls for buying bonds until it hurts. It calls for sacrifice!

We can't tell you how the average man and woman will respond to that call, although we haven't any doubt that they will measure up to what is expected of them. But a day or two ago, we happened to meet a woman of our community just after she had received word that her son had left for overseas. She was fingering the card that told his wholly ambiguous address—a card that told her much, and yet so little, and that urged the use of V-mail to communicate with him.

There were unshed tears in her eyes, but there was grim determination in the way she held her head—and in the way she walked away from us. And somehow we have no doubt that she—and all the women with loved ones in the service, and all the men whose sons are "over there"—will buy bonds until Uncle Sam's appeal is over-subscribed.

We aren't just buying bonds, now, to help our country. We are buying bonds to provide food and fighting equipment for the boys from our own homes, who are far from home and utterly dependent on us. And that makes it very personal to almost every one of us. When we buy a bond during this week or next, we will be praying that it will help to protect someone we love from death or injury. Let's buy a bond—for that boy in the service!

## Torrance Tracksters Score First Win In School's Athletic Program

It remained for the Torrance high school varsity track team to do something that no other Tartar sports outfit has done so far in the 1942-43 season—enter the win column. Neither the football nor basketball teams managed to score a victory but the tracksters from Torrance defeated Narbonne's Class A squad 57% to 45% last Friday in the opening meet of the 1943 Marine League season.

Torrance took seven of the 12 first places and nabbed some of the second place points to win, Bob Riggs, Narbonne sprinter, equaled the school's record in the 100 and smashed the 220 mark. Narbonne's Bees piled up a wide margin on the Tartars to take the decision in that division, 74 to 30.

Leech of Torrance was the only other double winner in the Class A event, taking first in the shot-put and broad jump.

**Two Meets on Friday**  
At the same time San Pedro defeated Gardena 62 1/2 to 42 1/2 at the latter's field and the San Pedro Bees had easy sailing over the Mexican lightweights, winning 72 1/2 to 47 1/2. There were no outstanding performances in either contest at Gardena.

Tomorrow's meets are: Torrance at San Pedro; Banning at Narbonne.

Here is the summary of the Torrance-Narbonne varsity meet: 100—Riggs (N), W. Smith (T), Rippy (T), 9.9. (Tied Marine League record.)

220—Riggs (N), Leech (T), Rippy (T), 21.6. (New Narbonne record.)

440—Worthan (T), Henderson (N), No third, 56.2.

### Tract Developer Retains Office

Carl Pelley announces he will maintain his permanent office at the furnished model home, 2912 Compton Blvd., Gardena to handle general real estate and repossessions in the Casita Hermosa tract as well as in the Highway Manor tract in Compton at 2900 East Rosecrans ave. where there is also a furnished model home.

Pelley says the Casita Hermosa tract has been practically sold out, only one house is left of each floor plan. His purpose in maintaining both offices is to keep the public informed of all available properties in these two districts.

### Refrigerators Now Available to Those Really Needing Them

If this spring your fancy turns to thoughts of a new electric or gas-operated refrigerator, you may be able to obtain one if you really need it. A War Production Board order will release 148,847 of these models to homes which cannot be served by other types of refrigerators.

It will be necessary to fill out a government form obtainable from the dealer as a part of the transaction. A purchaser must attest that the domestic mechanical refrigerator is needed since she has no other one nor is any other usable refrigeration equipment available.
