Retail ceilings for seven fresh vegetables, which were brought under price control for the first time early in March, have been established through the use of uniform mark-ups over the retailer's net cost, the Office of

Price Administration announced.

The vegetables are cabbage, carrots, lettuce, peas, snap beans, spinach and tomatoes.
For each vegetable except cabbage, the retailer will determine his ceilings by multiplying his net cost by 1.38. On cabbage, where spoilage is greater, the mark-up is 1.65 for independent retailers having an annual volume of \$250,000 or less, 1.54 for chain retailers with an annual volume under \$250,000 and 1.50 for any retailer with an annual volume over \$250,000.
The retailer will determine his ceilings each Thursday by applying given mark-ups to the net cost of the vegetable based on the largest single purchase of the preceding week.
