W.P.B. Chief Okays Vacations

From no less authority than Donald M. Nelson, W.P.B. chairman, comes official approval of vacations as a stimulus to war production.

Clearly acting as official government spokesman, Nelson declared in a formal press release last month that he believed that the granting of vacations to industrial workers will be helpful to war production this year.

"Experience has shown," he declared, "that the volume of production is increased if the workers can restore their energies through periods of physical and mental rest, change and relaxation. After a brief vacation a worker should be in better shape to contribute to the increased effort which our war program makes necessary."

But wartime vacations cannot be like peacetime vacations, the production czar emphasized. They should be brief, they should involve little or no travel, and above all they must be planned to avoid any curtailment in production.
