"KEEP 'EM ROLLING"

THE RAILROADS ARE THE BACKBONE OF OFFENSE

Above: Helene Hughes dancers line up in "A" formation.

Below: Quite appropriately, pretty Lorraine Cremonini was playing in "The Chinese Follies" when she autographed her baseball suit picture to go to a B-21 flyer in China.

China Flyers to Get Baseball Suits . . . and Pin-Up Girls

Recently the China correspondent for a West Coast newspaper told in his column how American B-21 bomber squadrons at a China base wanted uniforms for two softball teams. The flyers suggested that Acme Breweries act as "Santa Claus" and promised to give their planes such names as "The Acme Beer Barrel" and fly in an "AA" formation if the suits were supplied.

Karl F. Schuster, president of Acme, immediately ordered the suits and arranged to have them shipped to the China base. As an added touch, 18 pretty Helene Hughes dancers were induced to don the suits for group and individual photographs. Each girl then autographed her picture which was slipped into the shirt of one of the suits. So when the boys unpack their outfits, every player on both teams will have a very special "pin-up girl" to brag about and correspond with.

Apple Canning Urged as Help To Food Program

America's health-conscious homemakers were urged today to increase their home canning of apples in the next few weeks and thus help preserve this perishable fruit, assuring the family of a supply of this appetizing food during the coming winter.

Although the national apple crop is 28 per cent smaller this year than in 1942, many growers in this locality have a generous supply which is now moving to market, according to R. A. Halderman, A & P store executive in this area. "Home preservation of apples at this time will help conserve a vitally needed wartime food," he said, "and housewives should intensify their canning of apples and making of applesauce, apple butter and jelly."

Apples are unrational, relatively inexpensive, and contain calcium and essential minerals. Halderman pointed out, adding that the fruit is a good source of vitamin C.

Sounds far-fetched, doesn't it? But that's pretty much what happens when inflation really takes hold.

And inflation starts taking hold so gradually, you don't recognize its growth.

At a time like this, when money is plentiful and goods are scarce, inflation is a constant threat. It grows more serious every time we spend our extra dollars on goods we don't need.

The fight against inflation is on NOW. Winning the battle against inflation is second only in importance to winning the war against the Nazis and the Japs. In either case, victory depends in part on the wise use of our dollars, and how many of them we invest in War Bonds.
