RATION BOARD OFFICE HOURS—At 2300 Carson st., daily from 9:30 a.m. to 4:30 p.m.

22,425 Privately Financed Home Units Get O.K. In L.A. County

At the Torrance War Housing Center, Pat MacDonnell, the area manager, has figures to show that a total of 22,425 privately financed homes were authorized, exclusive of the allotment for Torrance, during the current year.

Of the 1500 originally allowed to Torrance, 550 have been absorbed, leaving the remaining 950 in the process of construction.

Of the 7500 authorized in the areas outside Torrance in July and September, 958 are being built. Authorization has been given for 5247 to begin construction, with the remainder in process of going through the usual government channels.

Building in 1944

Out of the 13,100 applications received in October and December very few have been approved up to this date, but are now in process of going through F.H.A. investigation. Hence this construction should be under way early in 1944.

During the first three months of 1943, MacDonnell explained, 18,347 privately financed homes were constructed in Los Angeles county. In addition to this 1000 were earmarked for occupancy by minority races, these being located wherever the matter of tolerance is in evidence.

Housing Picture

Here is another picture of authorized housing projects that are to be carried forward during the early part of 1944:

District No. 1—2500 homes in the general Inglewood area from Pico Blvd. on the north, Redondo Beach Blvd. on the south, Western Ave. on the east.

District No. 2—2000 homes in the San Pedro, Wilmington, Compton and Long Beach area.

District No. 3—500 homes in the area between Anaheim Blvd. on the south, county line on the east and Rosecrans Blvd. on the north, Avalon Blvd. on the west.

District No. 4—700 homes in Lynn and South Gate area.

District No. 5—300 homes (Watts area) south of Slauson to Imperial, east of Avalon to Alameda.

Golden Estate Distributed by Court Decree

Distribution of the \$207,341 estate of the late Congressman Charles J. Colden was ordered this week by Judge William J. Palmer in the L. A. County Superior Court.

One-fifth of the estate goes to the widow, Clara M. Colden, and one-fifth each to Abbey Bell Colden Alexander, Vi June Hawthorne and Archie John Colden, the former congressman's children by a former marriage, and one-fifth to Charles J. Colden, Jr., a son by the present Mrs. Colden. After all deductions the estate is valued at \$133,622.78.

In litigation lasting nearly six years since the congressman died, Mrs. Colden demanded that the court determine what portion of the estate was community property, to which she would be entitled to one-half under state law, and what portion was separate property, and that she be allowed to choose her share, under either community property laws or will provisions.

Texas courts, however, divided 3,200 acres of land there, owned by Colden, evenly among the five heirs, as provided by the will. Judge Palmer denied the request of the widow on the basis of the Texas ruling.

District No. 7—Strip between Pico and Olympic blvds., 1000 homes projected.

District No. 8—500 homes in Terminal Island areas for government harbor personnel.

The eyes of the world are upon us THE FOURTH WAR LOAN IS LAUNCHED!

AMERICA'S Fourth War Loan has been launched in Torrance.

It is the largest of all war loans in terms of *individual participation*—in the amount you must dig down for.

And—it is, perhaps, the most important of all War Loans. For it comes at a time when the eyes of all the world are upon us; the eyes of our friends, the eyes of our enemies, the eyes of our own fighting men.

We've just entered the crucial year of the war, a year of destiny, a year that promises to decide how good or bad a world we'll have to live in all the rest of our lives. And the world is wondering how deeply we mean it when we promise our men we'll back their attack, and when we promise our Allies we'll stick with them not only through the winning of the war but through the winning of the peace as well.

The Fourth War Loan is the home front's first big test of this new and vital year. It will take unity and determination of will of all the people to make the Loan succeed.

The need for this and other War Loans should be clear to every American. This war is the costliest effort ever undertaken by any country. It costs 250 million dollars each day. This is just the cost of the war, in addition to the regular, inescapable cost of running a great and huge country. Taxes can't take care of all this outgo. Neither can government borrowing from insurance companies, savings banks, corporations, and other large investors. It is necessary to turn to

the people, their weekly wages, their savings accounts, the money tucked away in pantry sugar bowls, in socks, under mattresses.

This is as it should be. In a democracy, war is the business of all the people. Some must fight, some must work, and put up the money.

It's the *only* way to raise the money. It's also the *right* way to raise the money. It gives you a good place to invest the extra money you have today. It's a curb on inflation, on that dangerous bulk of pocket money that leads to black markets and disastrous spending. It's a mattress for tomorrow, a sort of individually planned Social Security that will bring in welcome money in the years ahead when income might not be the Mississippi flood it is today.

These last are not the reasons for the Loans. They are extra reasons, however, over and above the \$1 interest you get on every \$3 you invest. The fundamental reason for the Fourth War Loan is that your beloved America, at war and in danger, needs your help!

Every one who has a job or savings, should invest at least \$100—if possible, \$200, \$300, or \$500 extra. Some 5,000,000 Americans, volunteers, will be working to sell these Bonds. One of these volunteers will ask you to buy, where you work, at your home, or some other place. If by some chance, you're missed, find out where to buy and buy on your own.

The place where you work will have a quota. That's where you should make your major investment. That's where your personal quota really counts.

But...

The place you live also has a quota. Try to invest there, too. Other people will ask you. Salespeople, in retail stores, have volunteered to help and have an individual quota. If they ask you to buy, try to buy from them, too. Movie theaters, restaurants, schools, banks, postoffices, and many other places also will be selling Bonds.

The Fourth Loan is a test of us as a nation, as a people.

The eyes of our fighting men are upon us to see if we are backing them.

... The eyes of our Allies are upon us to see if we are with them.

... The eyes of our enemies are upon us to see if we are soft enough to fall for a non-victorious, here-today-gone-tomorrow peace...

Are we? The answer is in your pocket!

**YOU THINK RUSSIA IS
CLEANING OUT GERMANS
Wait Until You See the
Way We Clean Out**

"GERMANS"

From Your
Upholstered Furniture

Our attack from the air—from the water—from the rear and flanks is so complete that complete annihilation to all health-destroying germs is possible. The cleaning process we give your furniture not only results in better health—but in added beauty and comfort you had forgotten because your furniture had become soiled and dirty.
