5. So far as is practicable, said pipe line shall be located along the edge or shoulder of the high-

way or in the parking so as not unreasonably to disturb the flow of traffic and where possible shall be laid in the unpaved portion of the highway. If the pipe line shall be laid across or along the paved portion of the highway, the repair of the highway, after the pipe line has been laid, may be made by the City at the expense of the grantee, and upon the presentation of a bill therefor, the grantee shall pay the same at once. The expense so chargeable to the grantee shall be determined upon the basis of the City's established rates therefor, provided that the amount so chargeable to the grantee shall in no event exceed the actual cost of such repair.

6. The pipe line and appurtenances constructed or maintained under the provisions of said franchise shall be constructed and maintained in a good, workmanlike manner and in conformity with all the ordinances, rules or regulations now or hereafter adopted or prescribed by the City Council of said City. 8. Said City of Torrance reserves the right to change the grade of any highway over which said franchise is granted, and the grantee shall, within thirty (30) days after receipt of written notice from said City Council, change the location of all pipes and appurtenances constructed under said franchise so as to conform to such change of grade.

9. If any portion of any highway shall be damaged by reason of breaks or leaks in any pipe or conduit constructed under said franchise, the grantee thereof shall, at its own expense, repair any such damage and put such highway in as good condition as it was in before such break or leak, to the satisfaction of the Superintendent of Streets of said City.

10. The grantee shall, in good faith, commence the work of laying the pipe line and appurtenances of which is covered by such franchise and privilege within not more than four months from the date of the passage of the ordinance granting said franchise and privilege, and if such pipe line be not so commenced within said time, said franchise and privilege shall be declared forfeited, but the grantee shall not commence the construction of any pipe line under the provisions of said franchise until it shall first have obtained a permit from the Superintendent of Streets so to do. Such permit shall be granted, under the provisions of Ordinance No. 28 of said City, passed July 5, 1922, upon application of the grantee, which application shall show the following facts: The length and proposed location of the pipe line proposed to be laid or constructed, the size and description of the pipe intended to be used, and such other facts as the Superintendent of Streets may require. Upon the completion of the construction of the pipe line constructed pursuant to said franchise, the grantee shall render a statement to the Treasurer of said City of Torrance, which has been actually constructed under said franchise at the rate of One Dollar (\$1.00) per rod.

11. On or about the 15th day of January of the year following the year in which said pipe line or any portion thereof has been laid and constructed under said franchise, the grantee of said franchise shall file with the City Council a map or set of maps each drawn to a scale of not less than 600 feet to one inch, showing in detail the exact location and size of all pipes laid by it beneath the surface of the public highways hereinabove described. Likewise, whenever any portion of said pipe line located under the surface of said highways, is abandoned,

the grantee shall, on or about the 15th day of January of the year following that in which such abandonment occurred, file with said City Council a statement in writing, giving in detail the location of the pipe line, or portion thereof, so abandoned and a map or set of maps showing the location and size of all pipes laid under said franchise and not theretofore abandoned.

12. The grantee shall, beginning at the expiration of five (5) years after the date of the granting of said franchise and continuing thereafter during the life of said franchise, pay to the Treasurer of said City of Torrance that proportion of two per cent (2%) of the gross annual receipts of such grantee arising from the transportation of petroleum, oil, liquid hydrocarbon products thereof, and/or gas through the pipe line of the grantee of which the pipe line laid pursuant to said franchise is a part which the length of the pipe line laid pursuant to said franchise bears to the length of said pipe line of which the line laid under said franchise is a part, and for the purpose of computing the payments aforesaid, the oil belonging to the same category as though said oil was being transported for others. If such proportion of such gross annual receipts of the grantee does not equal a sum computed at the rate of \$40.00 per mile for the length of the portion of the pipe line laid pursuant to said franchise, then, in that event, the grantee shall, in addition to such proportion of such gross annual receipts, pay such additional sum as is necessary in order that the annual payment shall equal the sum computed at such rate of \$40.00 per mile; provided, however, that such percentage and/or minimum payment shall not be required for the first five years after the date of the granting of said franchise, but thereafter the payment provided for in this paragraph shall be payable annually. Notwithstanding the foregoing provisions of this paragraph, the grantor shall have the advantage of any act of the Legislature of the State of California which may hereafter be enacted covering the subject matter hereof whereby municipalities may thereafter receive a greater return for the use of franchises of the character provided for herein; provided, however, that such greater return shall be applicable only with respect to payments accruing subsequent to the effective date of such legislation.

13. It shall be the duty of the grantee to file with the City Clerk of said City of Torrance at the expiration of six (6) years after the date of the granting of said franchise, and at the expiration of each year thereafter, a sworn statement showing the total gross receipts of the grantee, during the preceding twelve (12) months, from the transportation of petroleum, oil, liquid hydrocarbon products hereof, and/or gas through the pipe line of grantee of which the pipe line laid pursuant to said franchise is a part; and the grantee shall, at the same time for filing the aforesaid statement, it shall be the duty of said grantee to make to the City Treasurer of said City of Torrance the payment provided for in the preceding paragraph hereof.

14. Said grantee shall not sell or assign said franchise, or the rights or privileges granted thereby without the consent of the City Council, nor shall said franchise be sold or assigned except by a duly executed instrument in writing filed in the office of the City Council of said City of Torrance; and no such franchise contract shall be construed to grant to said grantee any right to sell or assign said franchise, or any of the rights or privileges thereby granted, except in the manner aforesaid.

15. Upon any neglect, failure or refusal of the grantee to comply with any of the conditions of said franchise, said City, by its City Council, may declare said franchise forfeited, and may exclude said grantee from further use of the highways of said City under said franchise, and said grantee shall thereupon surrender all rights in and to said franchise, and it shall be deemed and shall remain null, void, and of no effect.

16. The grantor, or any successor, municipal corporation hereafter formed, shall have the right at any time after five (5) years from the taking effect of the ordinance granting said franchise, to acquire the works, property and rights of the grantee, or any portion thereof, constructed, acquired or operated under the franchise upon making reasonable compensation therefor.

17. Said franchise is to be granted subject to the further condition that the grantee has now and shall at all times during the life of said franchise keep on file with the said City

Contract Assures Continuance of Scrap Paper Drive

Southland civic organizations now conducting local waste paper salvage drives today were assured that the mills will continue to buy their collections and pay OPA ceiling prices for them. Zack J. Farmer, general salvage chief for the War Production Board in southern California, said he has been notified by Washington that the agreement under which the paper mills nationally agreed to buy the paper under these terms until Feb. 15, has been extended indefinitely, subject to cancellation only after 30 days' notice. "Southern California mills already had agreed to furnish a local market at ceiling prices for all the paper our salvage committees can produce," Farmer said. "This agreement also remains in effect. It assures those hard-working groups now sponsoring drives throughout the area that every pound of paper collected will be bought to take care of the urgent needs of our own territory."

OPA ceiling price is \$15 per ton for waste paper, f.o.b. boxcar or delivered at the mill by truck in lots of five tons or more. Newspapers and magazines must be tied in 12-inch bundles while loose waste paper must be baled.
