MEAT DEPARTMENT

Meat is such an important contributor to our health and happiness . . . that it does not pay to be careless in making your purchases!

While we know that you would not think of buying meat that did not pass government inspection . . . however, the quality of the final piece of meat that you get depends to a great extent on the honesty and integrity of your butcher!

This has always been true . . . but more so today!

We tell you this . . . for it proves our long and continued policy of dealing fairly and honestly with the public pays . . . for today we are enjoying the greatest volume of business in our history. Why don't you too join the other thrifty housewives of Torrance . . . who know that they can get good meat at right prices always at the Carsonmart?
