Many customers have asked how Safeway prices of today compare with those of a year ago. Although we recognize the fact that a few prices have advanced slightly (under Government regulation, of course), the direct comparisons shown in the list below reveal that hundreds of prices are exactly the same or even lower than in 1943. Realizing the disastrous result that inflation during war-time can bring, Safeway has done, and will continue to do everything possible to hold prices down.
