The last tally of Narbonne's enrollment is 1345 and steadily climbing. By grades the class enrollment is as follows: seventh grade, 263; eighth, 288; ninth, 278; 10th, 281; 11th, 157; 12th, 104; and the Senior A's, 30.

The double lunch period is working out splendidly except for the junior high. Period 4A lunch period students are not cooperating with the rest of the school and are noisy in going to class and linger in the halls. All this disturbs the rest of the students who are still in their classes.

A tally shows that 40 per cent of the first lunch period eat in the cafeteria while only 30 per cent of the senior high students in period 4B eat there. There may be a few changes of classes during the fourth period to equalize the number of people in each lunch group.
