

Narbonne In Fast Win Over Torrance Five

In a Marine League basketball game Friday the Narbonne varsity hammered out a 61-35 win over Torrance, establishing quarter leads of 12-9, 34-14 and 46-30. The Gaucho Class B team smacked the Tartar Babes, 38-10, to retain their lead, undefeated, in the lightweight standings.

Gaucho varsity high point man was Lloyd Harline, forward, who bucketed 19 points. Lightweight Narbonne scoring honors were won by Keith Arnold, center, who tossed in 12 points.

Coach Bob Tabing's varsity Bucs rolled up quarter leads of 21-5, 35-9 and 58-16 in their fifth straight loop victory. The Buc Class B team led 31-12 at half-time.

Scoring the highest number of points yet totaled this season in any Los Angeles city high school basketball game, the undefeated San Pedro varsity Friday piled up a 70-34 win over Gardena. The Buc lightweight thrashed the Mohicans, 55-17.

Class Honored With Christmas Party at School

The B-11 American Life and institution class of Torrance High was entertained with a joyous Christmas party, given by their teacher, Mr. Barrow, Friday.

A committee of four students, Wanda Moore, Kenneth Arp, Keith Pouchbaugh and Elmer Anderson, served refreshments.

The party had two honored guests, Miss Elizabeth Parks, vice principal, and Miss Irene Mills.

The class entertained with carol singing.

The party closed with the dismissal bell.

After the Christmas vacation members of this class will be chosen to begin a current history paper in the school.

Safe Christmas Is Plea of Chief McMaster

Chief J. E. McMaster of the Torrance fire department has pointed out that the people of Torrance have bought thousands of Christmas trees this season and that there may be many fires started in the highly inflammable little trees again this year, unless everyone co-operates to make this Christmas not only a happy one, but also one that is safe from fire.

His reasoning is that when highly inflammable trees with their Christmas tree lights, thousands of feet of electric wiring, much of which is worn from years of use, highly inflammable cotton, ornaments of celluloid and lighted candles, and 14,000 people all get together for a big celebration, conditions are just right for starting many serious fires.

In order that we may still have our Christmas trees and yet remove their threat of fires, Chief McMaster makes these suggestions:

1. That no candles be used on Christmas trees.
2. That you be sure that the wiring of any Christmas tree lights is in excellent condition.
3. That no cotton, celluloid, or other highly inflammable ornaments be used on or under trees.
4. Place the base of your Christmas tree in a pan of water to keep it fresh and more fire retardant.
5. That package wrappings be disposed of at once, and the tree destroyed as soon as possible after Christmas.

NEW BRAKE LINING
If battle experience is any criterion, the nuisance of smoking brakes will be eliminated from the nation's postwar automobiles. A synthetic resin brake lining promises to do the trick.

Drastic Tax Withholding Change Due

Drastic changes in withholding tax procedure under the new income tax law were announced today by Collector of Internal Revenue Harry C. Westover. All wages actually paid on and after Jan. 1, 1945, will be subject to the revised 1945 withholding rates, regardless of when the wages were earned, Westover explained.

Under the old law the governing factor was the payroll period during which the wages were earned. Under the new law the date of actual payment or the date of mailing of payroll checks controls. Thus, wages earned in December, 1944, but not paid to the employee until after the beginning of the new year must be included in the 1945 reports, and not in the 1944 reports.

"Many firms," Westover said, "will date their paychecks Dec. 30 or Dec. 31 and intend withholding at 1944 rates. If these firms do not actually mail or deliver checks to their employees until the new year, the new 1945 rates will apply. Even the date of the check itself is immaterial if delivery is effected on or after Jan. 1."

Westover further explained that Withholding Receipts, Form W-2 (Rev.), for 1944 which must be given by employers to employees by Jan. 31, 1945, must show only those wages actually paid during 1944, together with the amount of income tax actually withheld during the current calendar year.

"If any wages earned in December are not paid to employees until Jan. 1 or later, such wages must not be included in 1944 withholding receipts," he said. "This year wage earners may use these receipts as their 1944 income tax returns, and inclusion in the receipts of wages paid in 1945 would result in incorrect returns."
