1524 BORDER - TORRANCE

Yes . . . the battle for victory and peace in 1945 will be won or lost in war plants like National.

The bottle-neck of the entire war effort is manpower! Yes—manpower in "must-must" vital war plants . . . like National, right here in Torrance!

It's for you to decide! If we are to win, quit doing something that is not contributing DIRECTLY to the war . . . and get in and help us keep vital, secret war supplies rolling out of National TWENTY-FOUR HOURS PER DAY.

Then and then only, after we have delivered the final crushing blows . . . can we give our engineers, our designers and our scientists the "GO" signal for the conversion of National to the production of peacetime goods.

Every hour devoted to war work today at National brings closer the time when we will need all available men and women to build the products of National the entire world will need for the more secure and more abundant peace.

Frankly, your job at National now is a necessary part in winning the war in 1945 . . . and gives you an opportunity at National in the peaceful, busy, active, productive days ahead!

NATIONAL SUPPLY CO.
