

## Mrs. Clemmer Asks Early Registrations For Nursing Course

Register now at Torrance Red Cross branch headquarters, 1345 El Prado, for a 12-weeks Home Nursing course to begin soon, asks Mrs. Elizabeth Clemmer, local Home Nursing chairman.

A Home Nursing certificate in every home is the goal of the American Red Cross Nursing Service.

Throughout the United States there is an increasing shortage of medical and nursing personnel for civilian and army and an uneven distribution of those doctors and nurses who are still active.

This situation requires intelligent use of the limited medical and nursing resources available.

It is estimated that in normal times one family out of every ten experiences illness and that in time of stress, one out of every six will likely be affected. Concurrent with this, hospitals are over crowded and understaffed and are finding it necessary to limit patient load to the acutely ill.

Also important to the problem are the facts that there is an ever present possibility of epidemics in time of war and that demands for man and woman power have withdrawn from the home large numbers of those persons who ordinarily give care to the sick at home.

In view of the foregoing circumstances, it becomes urgent that Home Nursing instruction reach as large a number of homes as possible.

Classes will be held here on Tuesday evenings from 7:00 to 9:00 o'clock in the Chamber of Commerce directors rooms at the corner of Sartori and Post avenues.

Mrs. Pauline Stern will be the instructor and will set a definite date for the course upon the completion of a class she is now teaching.

Register immediately at Red Cross headquarters, 1345 El Prado, Torrance 1524, or call Mrs. Elizabeth Clemmer, Home Nursing chairman, Torrance 850.

Breakfasting at Sardi's recently were Mesdames L. C. Burger, R. E. Smith, L. A. Rogers, W. I. Leighton, E. J. Rogers, H. E. Massie, Albert and A. H. Silligo.

## Supervision of School Boys Is Local Topic

(Continued from Page 1-A)

that "we cannot afford each student an escort home," but the parents of the students, also obligated to a certain extent for the conduct of the students, expect this supervision from the schools as provided by law.

The school teacher's day at Torrance high school, as provided by the Los Angeles Board of Education, is from 8:30 a. m. until 3:10 p. m.

The community has a right to expect more time of these teachers in view of such trouble—enough time to see that these fights do not take place, before school, during school and after school.

The whole episode has been discussed in class between teacher and student, and the article of the Torrance Herald also has been given quite general comment during class hours.

If Torrance teachers and administrators lived in Torrance, they would be in position to know the families of the students, they would take an active part in the community's civic and social life, and would be aware of any friction between groups long before it lead to such serious episodes as occurred last week.

## Who is the man in your kitchen?

Your gas company has the answer...he's a "CP" Gas Range research engineer. His drafting board is set up and he is working on a practical dream for your peacetime kitchen. The sketches on his board indicate more than the size and shape of your new "CP" Gas Range...they are the exact specifications for the most wonderful cooking performance you ever knew.

**THE PERFECT OVEN...** Automatically controlled to the most minute degree of temperature. Heavily insulated; big enough for the largest roasting pan.

**BROILER, ADVANCED DESIGN...** Top speed instantly; high radiant heat from the live gas flame...broils and really browns the steaks; seals in more of the juices—no waste of food flavor or vitamins.

**NEW CONVENIENCES...** Spacious table top; glareless light; timer clock; accurate controls; adequate drawer space; automatic lighting; exact control of temperature, from low simmer to top speed; an easy range to keep clean.

**SUPERB BEAUTY...** Modern lines; sparkling white finish; smooth top; rounded corners; attractive handles and control panel.

**ECONOMY OF OPERATION...** It always costs less to keep house with gas; 95 out of every 100 women in Southern California use gas regularly; it's modern and practical, too.

means "Certified Performance"...the mark of special quality on ranges made by all high grade manufacturers. 22 super-features...Gas Industry Laboratories are developing still further improvements for after the war. The finest in modern cooking...the most practical...will always be a "CP" Gas Range.

## Perry Letter Hits Account of Race Fight

(Continued from Page 1-A)

formation concerning the existence of such a "ring," it should be brought to the attention of the school in a way that will enable us to cooperate most effectively in safeguarding our young people.

"Such seemingly erroneous reports as the three noted above can do much to break down constructive measures already set in motion, and I feel confident that you will wish to throw your influence to the side of correction.

"We in the schools are convinced that the educational objectives so vital to the youth of today can be attained more quickly and more effectively when the relationship between the schools and the community is one of mutual understanding and respect. Community newspapers hold responsible roles in bringing such desirable and youth-benefitting relationships into being.

"Hoping that this letter may serve to correct any mistaken impressions resulting from the article you published in last week's issue of the Torrance Herald, and feeling very much in need of your support in the educational program for Torrance youth, I am,

"Sincerely yours,  
"HAROLD E. PERRY,  
"Principal."
