

DEDICATE YOUR BLOOD

Now it is possible for you to dedicate your pint of blood to someone in the Armed forces. Your name and his, in your own handwriting, go right on the label that is pasted on the over-seas plasma carton. Call your Red Cross Blood Donor Center today.

BOMBS AND BIKES

An English Salvation Army officer writes, "We had a very lively time visiting between the flying-bombs, I didn't mind those as much as I did the admonition of the man who told me not to lean my bicycle against his fence as it might scratch the paint!"

Know Your Child, Dr. Swartout Urges in Article

H. O. SWARTOUT, M.D., Dr. P.H., Los Angeles County Health Officer

If a child comes to the breakfast table and complains of "that old cereal again" and exhibits more or less the disposition of a gouty old man who has just paid his tax bill, the chances are that thermometer will do more to reveal the cause of his trouble than will any amount of talking, discussion, or argument.

Quite often when children are ill they will complain not of their illness but rather of something else or of things in general. A child's deviation from his normal appearance and behavior should arouse suspicions of possible illness.

Inspection of the child's throat and a reading of his temperature are things which every parent should know how to do in order to decide the necessity or urgency of medical aid.

But—know your child. What is a normal temperature for one child may not be normal for another. A healthy throat may be either pink or light red in color. A change in throat color accompanied by fever is many times a warning that scarlet fever, diphtheria, tonsillitis, streptococcal sore throat or any one of several other common infectious diseases is present or on the way.

In infants, many times, illness may be detected by these signs as well as those of crying, restlessness, rolling of the head, squirming, and thrashing about of the legs.

TOWNSEND CLUB By LOTTIE WADE

Torrance Townsend Club will hold a social night on Friday evening March 23d. There will be games with prizes also a door prize. Refreshments and dancing. If those wishing to play games could be at the hall by 7 o'clock, they could enjoy a longer period of play. Also the dance period would be lengthened. The St. Patrick's party on March 16 was attended by a nice crowd with most every one wearing the traditional green. Music was good as always and refreshments very tasty thanks to Mrs. Collier and Mrs. Newell. Every one had an enjoyable evening with "Home Sweet Home" being played much too soon.

BLOOD NEEDED

The greatest personal contribution to the men overseas we civilians here at home can make is a pint of blood. Call your Red Cross Blood Donor Center now.

"Matter" will be the subject of the Sunday Lesson-Sermon in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston. A declaration from Isaiah will be the Golden Text: "The grass withereth, the flower fadeth; but the word of our God shall stand for ever."

This exhortation from Ezekiel is included in the Bible Lesson, "Thus saith the Lord God; Every man of the house of Israel that setteth up his idols in his heart, and putteth the stumblingblock of his iniquity before his face, and cometh to the prophet; I the Lord will answer him that cometh according to the multitude of his idols; . . . Repent, and turn yourselves from your idols; and turn away your faces from all your abominations."

Mary Baker Eddy writes in "Science and Health with Key to the Scriptures": "Mortal mind is ignorant of self, or it could never be self-deceived. . . . Since it must believe in something besides itself, it enthrones matter as deity."

"Moses advanced a nation to the worship of God in Spirit instead of matter, and illustrated the grand human capacities of being bestowed by Immortal Mind."

Servicesmen's stationery? Call Torrance 444 or 443.

WALKIE-TALKIE

Although it becomes increasingly difficult as time goes on to separate post-war fantasy from fact, one thing seems certain—the farmer will have his walkie-talkie if he wants it. Each walkie-talkie set will occupy three kilocycles, thus permitting 3333 stations to talk in a two-mile area, without overlapping.

BOWRON WORRIES

Urging that Congress approve the Bretton Woods plan, Mayor Fletcher Bowron warned that unless the international monetary fund and International Bank for Reconstruction and Development are established the World Peace Conference at San Francisco on April 23 may prove a meaningless convention.

KNOW YOUR AMERICA!

WHAT WAS THE EARLIEST USE OF INTERNAL REVENUE TAXES BY THE UNITED STATES GOVERNMENT?

Just a week ago America completed the payment of the greatest income tax in its history. This was necessary to fight and win . . . a price none too high! But it is wise to set aside regularly the EXTRA money you will need to pay your 1945 income tax. This can be done through a Torrance National Savings Account . . . or our convenient, economical "METER" checking account.

The "Talking Fence"

You're rolling along through mountainous western country. Suddenly your train stops. Ahead—a signal light has turned red. The "talking fence" has flashed its warning to the engineer.

Technically known as the "slide detector fence", it is erected parallel to Union Pacific tracks as a protection against falling rocks, trees or other possible obstructions. Any such object striking the fence breaks an electrical contact, "setting up" signals miles down the track to warn trains approaching in either direction. A trainman must then make a thorough

inspection before trains can proceed. Union Pacific uses every possible precaution to safeguard its passengers and freight . . . troops and war materials . . . transported over its Strategic Middle Route uniting the East with the Pacific Coast.

The "talking fence" is but one of the many safety devices developed by our nation's railroads. Such improvements result from enterprise and initiative; characteristic American traits that built the Union Pacific . . . that built Your America, land of equal opportunity for all.

* Listen to "YOUR AMERICA" radio program on Mutual nationwide network every Sunday afternoon. Consult your local newspaper for the time and station.
