Pfc. Pope Wins Distinguished Flying Cross

Pfc. James L. Pope, aerial radio operator, of 2085 Lomita blvd., Lomita, Calif., has been awarded a Distinguished Flying Cross, it was announced by Brig. Gen. William H. Turner, commanding general of the India-China Division, Air Transport Command.

The award was made upon completion of 300 hours of operational flight in transport aircraft over the dangerous and difficult India-China air routes, where enemy interception and attack was probable and expected.

The air trail over the Hump, famed route through the towering peaks of the Himalaya Mountains, blazed by the Air Transport Command, is recognized by airmen as the world's toughest. Today the Hump route is the main lifeline of vital military supplies for the Allied forces fighting the Japanese in China.

The citation accompanying the award adds:

"Flying at night as well as by day, at high altitudes over impassable, mountainous terrain through areas characterized by extremely treacherous weather conditions necessitating long periods of operation on instruments . . . requiring courageous and superior performance of his duties to overcome, he accomplished his mission with distinction."

The man who can see with his tongue

His job is tasting samples of all milk Golden State gets in from the dairy farms. And while he doesn't actually work blindfolded, he could . . . because this man's tongue tells what he needs to know.  
A person similarly trained is on duty at each Golden State milk plant. Every day's milk from every farm is tasted separately—apart from all the rest—and graded for flavor. Even the slightest of flavor imper-

fections are detected by our taster's "seeing" taste buds.  
Quickly a report goes to the farmer who sent in the milk. A Golden State dairy expert drops around to counsel on the herd's feed formula, on milking methods, and on milk handling. Whatever has caused the "off" flavor is traced and corrected right now!  
This flavor test, of course, is just one way in which we check constant-

ly on quality. The farmers who supply our milk—and all of us—work like sixty to assure uniform goodness in every bottle of Golden State milk.  
And we're every bit as fussy, you can be sure, about maintaining top quality in all dairy products that come to you bearing the Golden State label!

You strike it RICH in Golden State

Perhaps you can't get all the Golden State Products you want just when you want them. Sorry, but necessary wartime restrictions limit quantities we, and other dairies, are able to supply. Please keep trying, and we will do everything we can to serve you and your dealer.
