

## Boys Disappointed As Annual Trek Is Cancelled

Some 250 boys in the county were disappointed to learn Wednesday that the annual American Legion sponsored "Boys State" encampment at Sacramento, during which they would practice government processes, has been cancelled because of transportation troubles.

Six hundred high school juniors throughout the state would have attended the event, slated for the last week of June. This

## Two Fire Stations, More Men Asked As County Rejects City Plea

Request of the City of Torrance for permission to use the park property adjoining the health center on Carson st. as the site for a new fire station was denied by the Board of Supervisors on Tuesday according to Supervisor Raymond V. Darby. The County deed conveying the property in 1940 to the City restricted its use to park purposes, and the County Counsel has advised the Board the proposed use would be illegal.

The action of the supervisors threw a "bomb shell" into the plans of the City Council to construct a new station on the site at Carson st. and Plaza del Amo sufficient to house five pieces of equipment.

What to do in the failure of the supervisors to approve the idea was the subject of much discussion locally, but the play that stood out foremost in the minds of many officials and citizens was the suggestion that two fire stations be built, one in the Fern ave. area to serve that district and North Torrance, and the other in the downtown district, to serve that area and nearby residential property.

While it was admitted that the suggestion that two fire stations be built, if followed, would result in the need for additional regular firemen, the point was

made that the force now is so limited that only one driver and a captain can respond from the central station in event all three pieces of equipment housed downtown are needed. Volunteers make up the balance of the crews.

A station is maintained in Walteria with two regular men and call men; a pumper in Clifton Riviera with one call man and chemical cart in North Torrance with one call man.

There are five men on each shift at the central station, 24 hours on and 24 hours off with two shifts off each month under state law, making four men regularly available at any one time.

### BRIDLE PATHS

A sufficient area will be set aside for the inclusion of bridle paths in the development scheme of Alondra park, according to Supt. Raymond V. Darby. With the increasing popularity of horseback riding, he believes that these trails would add to the pleasure and enjoyment of many equestrians in the southwest area of the County.
