OFFICE OF DEFENSE TRANSPORTATION GENERAL ORDER 52

Effective 12:01 a.m. June 30, 1945

"No carrier shall reserve, assign or allocate seating or sleeping space on a passenger train more than 120 hours in advance of scheduled departure time of such train. No carrier shall issue a ticket for a reserved seat or sleeping space on a passenger train more than 120 hours in advance of scheduled departure of such train, except in the case of tickets for reservations made prior to the effective date of this Order which have not been picked up."

OFFICE OF DEFENSE TRANSPORTATION GENERAL ORDER 53

"On and after 12 o'clock noon, July 15, 1945, no common carrier by railroad or sleeping car company shall operate or transport any railway car containing sleeping space or sleeping accommodations to a point of distance 450 miles or less from the point of origin of such car, such distance being measured by the shortest distance by railroad over which sleeping cars are operated between such points. Each common carrier by railroad shall forthwith cancel all reservations for space after 12 o'clock noon on July 15, 1945."

What about Travel now....

under the new Government rulings?

The Government has curtailed civilian travel by ordering the railroads not to make reservations on passenger trains more than five days in advance of departure and by banning sleeping car service on trips of 450 miles or less.

A lot of people are assuming that, with the European war over, the travel situation on trains should have eased up by now.

But they are finding out that it's harder than ever to get space. They're asking themselves, "Why?"

The reason is simply that the railroads are being called upon to repeat a job of moving over 3,000,000 soldiers. But this time it is to be done in 6 to 9 months whereas originally it took more than 2 years to move these men.

The railroads are still operating with the same number of passenger cars that they had when the war started. Building new passenger cars has not been permitted since Pearl Harbor.

Many Pullman cars have been converted into

hospital cars, and, of course, more Pullmans and coaches than ever are being withdrawn from civilian service to use in the movement of men to the Pacific.

The great bulk of traffic for the Pacific funnels into 4 railroads to ports of embarkation in California. Santa Fe, with its improved facilities, is carrying a large part of this traffic.

This all adds up to the fact that only a very limited amount of space is left over for civilian travel.

Of course we like to accommodate our friends and make new acquaintances. But you, too, agree that the troops and materials needed to whip Japan must come first.

New cars are now on order. Santa Fe has enough new chair cars on order to seat 3186 people. 16 new lunch counter-diners are also on order. A substantial number of new sleeping cars will be placed in service on the Santa Fe as soon as War Production Board orders permit.
