

Need for Winter-Proofing Explained to All Local Automobile Owners

Seasonal Servicing and Check-Up Essential To Keep Cars Running

"Time to Winter-proof your car, too!"

This is what Mobilgas dealers are telling motorists of Torrance and Lomita and vicinity. By this they mean that it's not only time to shake the moth balls out of furs and woollens, dig skidders from the closet and appraise the winter fuel supply, but it's time, they say, to check up and service the hot-weather-groggy auto and give it a chance to withstand bad weather driving ahead.

Because mild winters are usually to be expected here," declares W. C. Campbell, Mobilgas and Mobiloil wholesale agent in this territory, "many motorists are apt to be careless regarding pre-winter checkups and routine servicing of their cars. It's important, however, that this work be done. For even though temperature changes are not too pronounced, bad weather cannot be entirely escaped. But aside from climatic conditions, car manufacturers are naturally intensely interested in the performance of their respective products—stress the need for periodic protective services such as re-packing wheel bearings, changing differential and transmission lubricants and motor oil, chassis lubrication, flushing the cooling system, renewing oil filter, and generally checking and servicing other vital parts.

"This fall check-up, designed to secure the best performance from any car and make it last longer, we term 'Winter-proof-

ing.' Mobilgas dealers are equipped to give this service which is a wise precaution to help keep your car on the job until new ones are available."

Tire Increase In November Is Announced

While the number of grade one passenger tires available to Southern California motorists during November will be greater by 17,931 than the October allotment, it just won't add to the individual purchaser's chances of obtaining one.

This rather unique situation developed today when OPA announced the November allotment as 134,687 tires compared with the October 116,756 and at the same time pointed out that the increase must care for the needs of motorists in three additional counties, San Diego, Imperial and Kern, recently tacked on to the nine counties heretofore comprising the Los Angeles District.

If we would have anything of benefit, we must earn it, and earning it become shrewd, inventive, ingenious, active, enterprising.

No pleasure is comparable to the standing upon the vantage-ground of truth.

Schimmick Wins Naval Air Wings

Aviation Machinist's Mate Third Class Robert Schimmick, 1407 W. 220th st., Torrance, was presented his wings as a U. S. naval aircrewman this week when he completed the final phase of training at U. S. Naval Air Station, Jacksonville, Fla.

Son of Mr. and Mrs. Emory Schimmick, the 21-year-old aircrewman has undergone a rigid program of training in aviation mechanics and aerial gunnery, and aircrew and ground crew operations under simulated combat conditions. He is now qualified for duty as a member of an air-combat team, either aboard an aircraft carrier or at a naval air station.

Schimmick enlisted in the navy Mar. 31, 1942.

Radio Equipped Planes To Use L. B. Airport

Radio-equipped civilian airplanes again may use the Long Beach Municipal airport Col. K. C. McGregor, commandant of the Sixth Ferrying Group, has announced.

The Air Transport Command has ordered three of the largest hangars on the field turned over to civilian operation.

The authorization of the transfer to civilian use and of civilian use of the field came from the Ferrying Division, headquarters in Cincinnati, it was stated.

Meanwhile, the Sixth Ferrying Group, which still occupies the
