This verse from Isaiah will be the Golden Text of the Sunday Lesson-Sermon on "God, the Only Cause and Creator" in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston: "Thus saith the Lord that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I am the Lord; and there is none else."

According to John's Gospel Jesus said to the lame man at the pool of Bethesda, "Wilt thou be made whole? The impotent man answered him, Sir, I have no man, when the water is troubled, to put me into the pool: but while I am coming, another steppeth down before me. Jesus saith unto him, Rise, take up thy bed, and walk. And immediately the man was made whole, and took up his bed, and walked."

Mary Baker Eddy writes in "Science and Health with Key to the Scriptures": "When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible. The only way to this living Truth, which heals the sick, is found in the Science of divine Mind as taught and demonstrated by Christ Jesus."

David Babcock Named Chairman For Red Cross

David T. Babcock, prominent business executive, will serve as volunteer chairman of the Los Angeles Red Cross 1946 fund campaign, starting date for which has been set for March 1.

It marks the third consecutive year that Babcock has served Red Cross in this capacity. "Since the end of World War II hostilities, the demands upon the Red Cross here at home have trebled," Babcock pointed out in accepting the chairmanship. "Particularly is this true here in Southern California where Red Cross volunteers and staff personnel are on virtual round-the-clock call in carrying out assignments in military hospitals, at the port of embarkation, and in caring for the needs of returning veterans and their families."

"In addition, Red Cross faces vast expansion in the operation of its regular educational and training programs as part of our community life," Babcock said. "I consider it a distinct honor to again be selected to serve as chairman of the fund raising committee."

Within the next few days, Babcock is scheduled to name the top volunteer leadership to direct the fund raising campaign in the area served by Los Angeles Chapter.

KEYSTONE ASSEMBLY OF GOD—Rev. Charlotte Shock, 446 W. 29th St., Torrance. County License Fees Will Be Increased

An amendment to the County license ordinance which will limit licenses to the first three months of the new year today had been adopted by the Board of Supervisors.

The board plans a revision of the fees with an increase of at least 50 percent.

The measure is applicable to Limona and other unincorporated county territory but does not affect dog and bicycle licenses which are to be continued on an annual basis.

License fees received by the county during the past year totaled \$274,000, according to County Manager Wayne R. Allen's office, which was considerably below the cost of policing business licenses.

Multi-Million Dollar Expansion Will Aid Building Material Supply

A multi-million-dollar expansion of plants producing roofing paper, floor coverings, transit pipe, asbestos-cement pipe and paint is planned for early in 1946, Louis M. Breves, director of the Civilian Production Administration offices, announced.

Prior to some time during the first part of next year, however, there is little prospect of getting building materials for this area, he said.

Early cold weather has hastened the consumption of gas as fuel in dwelling units, with the result that the supply to local brick yards has been reduced. The yards are closing their kilns from six to eight weeks earlier than usual.

Wood shingles are still very scarce, and the production of roofing paper has been curtailed by the shortage of rags, which now generally are being used to make higher grades of paper.

The same paper shortage which handicaps newspapers is curtailing the production of wall-board and plaster board.

Soil pipe production still lags. The fuel shortage which is crippling the brick kilns is also retarding the manufacture of clay pipe.

Very little building hardware is made in this area, and the available supply is very short.

Lath and buttonlath are suffering from the same bottle necks as lumber and wallboard. Thousands of building projects are marking time while waiting for lumber.

Cement, sand, gravel and reinforcing steel are the only building materials which appear to be plentiful, Breves said.

New Classes For Expectant Mothers Form

New classes for expectant mothers are being organized by the Los Angeles county health department, according to Miss Clara Barrows, public health nurse in charge. In Torrance classes will be held each Wednesday, beginning Dec. 12 at 1:30 p.m. at the health center at 2300 Carson ave.

Prospective mothers or those having the care of small babies are invited to attend these free courses. Instructions in making the bassinet and layette, nutrition, bathing and feeding the newborn baby, will be offered. A film, "The Care of the Newborn Baby," and one on nutrition, "The Training Table," will be shown by the division of health education of the county health department.
