

INFORMS SACCHARIN NOT SUITABLE FOR HOME CANNING

While saccharin has about 500 times the sweetening powers of cane or beet sugar, it is not suitable for use in home canning, warns Mrs. Margaret Todd, home demonstration agent in Los Angeles county.

SENATOR KNOWLAND NAMED TO SERVE ON ATOMIC COMMITTEE

U.S. Senator William F. Knowland of California received a distinct recognition on the final day of the 79th Congress, when he was appointed with other Senators to serve on the Permanent Joint Congressional Committee on Atomic Energy.

U. S. SUGAR PRODUCTION

In 1930 the production of sugar, both cane and beet, in the United States, was 1,367,000 short tons. In 1940 the production had increased to 2,283,000 short tons.

FLYING DOCTORS

Besides giving thousands of medical consultations over a radio telephone system, Australia's Flying Doctor Service for isolated areas covers more than 130,000 miles annually by plane.

Government Lists Qualifications Of Veterans To Receive Free Land

Following announcement by Secretary of the Interior Krug in Washington of public lands being opened to World War II veterans in the Tule Lake Division, Klamath Project, Public Notice No. 143 was posted today in the post office at Klamath Falls, Oregon, setting forth qualifications for entrymen and explaining the method of selection to be followed in awarding the lands.

Simultaneously, copies of the public notice and application forms are being mailed to all veterans who have asked to receive it. Veterans interested in the lands who have not yet given notice of their interest should write immediately to Superintendent, Bureau of Reclamation, Sacramento, California.

The lands themselves comprise 7,027 acres of highly productive and valuable irrigated land divided into 86 units. The units vary in size from 60.8 acres to 141.3 acres, the most valuable land in the smaller units. Average size of the 86 units is 87.5 acres.

The Tule Lake lands are the first public lands for farming to be opened to veterans of World War II in the United States. This fact, coupled with the high value of the crops produced on the land, accounts for the very large number of applicants, expected to exceed 15,000.

Minimum qualifications for veterans who wish to apply are outlined in Public Notice No. 143 as follows:

- Citizenship: Must be a citizen of the United States, or have declared intention of becoming a citizen.
Character: Must possess standards of honesty, temperance, thrift, industry, moral conduct, and seriousness of purpose.
Farm experience: Must have had at least two years' full-time farm experience after age of 15 and within the last seven years of civilian life; or during last 10 years of civilian life must have lived and worked on a farm continuously for five years after the age of 12.
Capital: Must possess at least \$2,000 in unencumbered assets applicable or convertible to the needs of farming in the area.

County Health Officials Have Identification

All field workers of the Los Angeles County Health Department are furnished with official identification cards and should be asked to show the card when investigations or inspections are made.

This was pointed out by Dr. Roy O. Gilbert, Acting County Health Officer following reports of misrepresentation of personnel in East Los Angeles and Whittier last week.

The second misrepresentation occurred in Whittier when a young man, offering for sale a book on public health, inferred that he was from the local health department.

When official calls are made, adequate identification is furnished, those making the calls, and if not offered, should be required before entering premises.

Contracts To Dresser Total \$2,500,000

The Stacey-Dresser engineering division of Dresser Industries, Inc., has since March 1 been awarded contracts totaling over \$2,500,000 for the engineering and construction of propane-air plants for gas companies, it was announced today by H. N. Mallon, president of Dresser Industries, Inc.

The plants enable gas companies to utilize liquefied propane to supplement either natural or artificial gas, as the case may be, at times of peak load requirements. Major Stacey-Dresser installations completed or in process are those for gas public utility companies serving Columbus, Toledo, Detroit, Cincinnati, Boston and Birmingham.

This Stacey-Dresser engineering division, Mallon said, provides a general engineering and consulting service for gas industry utility companies, and in the erection of propane-air plants secures a substantial share of the required materials and equipment from various of the Dresser operating companies. Such items include pumps from Pacific Pumps, boilers from Bryant Heater, compressors from Clark Bros., buildings from International Derrick and Equipment, couplings from the Dresser Division, meters from Roots-Connorsville, and prefabricated piping from Stacey Bros. and Bovalrd and Seyfang.

Local Doctor Is Named to Medical Advisory Group

Dr. Norman A. Leake, 1525 Marcelina avenue, this week was named to the consulting committee of the Memorial Medical Center of California, \$6,000,000 hospital facility to be constructed in the western section of metropolitan Los Angeles.

Dr. Leake is one of 62 outstanding physicians and surgeons selected to assist the general appointed nine-man medical advisory committee. Announcement of the appointment was made by Dr. W. L. Marxer, West Los Angeles, chairman of the advisory group.

With the organizational structure of the proposed new center nearing completion, a campaign to raise a minimum of \$6,000,000 will get under way in the near future, according to Donald M. Nelson, campaign chairman.

ALAMO HISTORY The Alamo, located at San Antonio, Texas, was formerly a fort. Originally it was a mission house erected by the Franciscan Fathers in 1722.

FIRST SUNDAY SCHOOL Robert Raikes, an Englishman, is given credit for having organized the Sunday school, in about 1780.

Telephone expansion program geared to Southern California's amazing growth

In all of Southern California's great history of growth, there has never been a period like this. Just one indication is the million and a half a day increase in telephone calls over last year.

To keep pace with this progress we have put a \$180,000,000 expansion program into full swing. Yet the demand for telephone service continues to grow about as fast as we are able to fill orders by top-speed work.

In our effort to supply service for all who desire it we're rushing construction work on over 50 buildings, installing new switchboards in local exchanges, adding about one million miles of wire in exchange cable, securing vast supplies of other necessary equipment.

Yes, your telephone is on the way; we will get it to you just as soon as we can. In the meantime, we appreciate your sympathetic understanding and thank you for your patience.

Disabled Veterans Defended By Gen. Omar N. Bradley

Six veterans, all permanently paralyzed from their hips down, formed the spearheads of an attack launched this week by General Omar N. Bradley, Administrator of veterans affairs, against the almost universal fog of the industrial world that the disabled have lost their employability.

This week, significantly, first anniversaries of V-J day and of General Bradley's appointment to administrator, these six veterans are in New York City at General Bradley's request to demonstrate before leading American industrialists they are capable of doing a full day's work and earning a full day's pay.

LOOK to Greyhound first for COMPLETE TRAVEL SERVICE What do you get for your money when you buy a bus ticket? If it's Greyhound, you're getting much more than just a way to go places. For Greyhound service is complete. It begins the minute you enter the depot... and stays on the job right to the end of your journey. Greyhound travel service in all its many forms has continuously set the pace for the entire motor bus industry. It explains why bus travelers everywhere show such an overwhelming preference for Greyhound. Such service is made up of a lot of things that make a big difference to the fellow who is doing the traveling... reliable information cheerfully given by people who know travel business... expert help in planning a short trip or a complete vacation... clean, modern depots in handy, downtown locations... carefully planned meal and rest stops with good food and up-to-date facilities... the world's best drivers, famed equally for courtesy and their ability at the wheel. Now and tomorrow, you and your community can depend on Greyhound travel service... the very best in modern highway transportation. FOR THE BEST IN BUS SERVICE...
