PHOTOSYNTHESIS

A new step toward the understanding of photosynthesis, the process whereby all life on work in relays, carry the malis carth is maintained, has been taken by University of Califoria scientists.

Noted Hebrew Program April 10 In Lomita Sunday

will be twenty-five and fifty cents.

Funds raised at the concert, and an intensive paper drive which will be started this week, will be used for the payment of a \$465.00 Sousaphone recently purchased by the group. The Sousaphone will be on display in a Torrance department store from now until the evening of the concert, according to James Van Dyck, director of the band.

A FATAL SWALLOW

An average-sized person would have to swallow a large spoonful of DDT to become fatally poisoned, according to a University of California zoologist.
