By Gene Byrnes School Benefits For Children Of **Vets Broadened**

A new law passed by the Le-gislature and signed by Gover-nor Warren makes state educa-tional assistance available to adopted or step-children of vet-

A state constitutional amend-ment to appear on the Novem-ber, 1948, ballot holds promise of better government for San Pe-dro through a borough system, according to Assemblyman Vin-cent Themes

The assembly constitution-al amendment 18, he explained, liberalizes methods for revising liberalizes methods for revising city charters to incorporate a borough in "all or any part" of a city government to handle general or special powers. The present city charter re-quires a city-wide borough sys-tem, with a difficult method pre-seribed for its introduction, the San Pedro assemblyman said.

Food Poisoning

ROY O. GILBERT, M.D. Los Angeles County Health

Officer Now that the hot months are here, an old danger threatens us

here, an old danger threatens us anew in every home. The ham, chicken, turkey and tongue that you save for a second meal-your oottage cheese, cream puffs, pies and cakes can turn into vio-lent poison within a few hours unless they are refrigerated and handled properly in your kitchen. Most frod poisoning is caused

Most food poisoning is caused by a germ called staphylococcus Certain strains of this germ are capable of producing a poisor which causes most of our food poisoning haves

ment does not extend to adopted or natural children. Caldwell urged interested wid-to call at the Torrance, tro-to bt at in additional information and the necessary forms to bu-used in applying for this assist-ance. **ARTIFICIAL AIDS** The addition to a general hospi-tal, a tuberculosis sanitorium, and a convalescent home for re-turnees from the Indies, the Netherlands Red Cross is estab-lishing the first prosthetic hos-pital in Western Europe to pro-vide artificial limbs, eyes, etc., Angeles department: The letter also stated that tarrat-tic control lines would be painted at the intersection by the Los name and a convalescent home for re-turnees from the Indies, the Netherlands Red Cross is estab-lishing the first prosthetic hos-pital in Western Europe to pro-vide artificial limbs, eyes, etc., The letter also stated that tarrat-tic control lines would be painted at that intersection by the Los Angeles department:

44 ways To get "Something for Nothing"

The railroads have received 44 "rules" demands from the leaders of the oper-ating unions . . . representing engi-neers, firemen, conductors, trainmen and awitchmen. They say they are seeking only changes in working con-ditions—NOT a wage increase.

More Money For Less Work

But what kind of rules are being asked for? Twenty-eight of them would compel railroads to pay more money for the same, or less work; 7 would require additional and un-necessary men to do the same work; the reset would bring about changes to reset the creation of increased in operating practices at increas

For Instance:

The Union leaders demand additional train and engine crews on Diesel-pow-ered trains—one full crew for every power unit in the locomotive. A freight train hauled by a 4-unit Diesel would have to carry 4 engineers, 4 firemen, 4 conductors, and at least 8 brakemen, or a total of 20 men instead of 5.

"Made Work"-Sheer Waste

"Made Work"—Sheer Waste The Union leaders demand that full-might freight trains be cut to about half their length, even though such service to you. This rule would call for double the number of trains, and make accients more likely. Additional equipment, yards, and other facilities required to take care of the facilities required to take care of domain the second the second or millions. What the Union leaders really want is to make prore jobs. The Union leaders demand that when a traw in one class of service perform incidental service of another class, they will be pail not less than a day's pay for each class, even though all service is performed as a part of the same day's

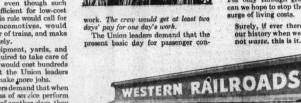

ductors and trainmen be reduced from 150 to 100 miles, which would have the effect of increasing their pay 50%. Such a run often takes only two or three hours! You Can't Afford This Waste Demands like these are against the interests of the whole American people, who depend on railroad serv-ice for nearly everything they eat, wear and use.

wear and use. These rules would cost A niLLION DOL-LARS annually --a gigantic waste which neither the railroads nor the country can afford. Railwoad workers are good citizens and good employes, with pride in their calling. Their record during the war was outstanding. We do not believo they fully understand the "featherbed" rules which the Union leaders are do-mading. We do not believe they understand the harmful results which these rules would have to the railroad industry, to the millions of men and women dependent on railroads for their livelihood, and to the shipping and con-suming public.

The great strength of America is in production—an honest day's work for an honest day's pay.

For only through greater production can we hope to stop the steady upward surge of living costs.

Surely, if ever there was a time in our history when we needed to work; not waste, this is it.

105 WEST ADAMS STREET . CHICAGO S, ILLINOIS We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.
