

A WEEK 'TIL PAYDAY— AND YOU'RE BROKE?

Not if you use TENPLAN checks!

That new hat, plus your regular bills, added up to more than you thought. It wouldn't have happened if you had used a TENPLAN checking account—your checkbook stubs make it easy to keep track of your money. Here's what to do. Purchase 10 checks for \$1 at any branch of Bank of America. Then deposit enough money in your TENPLAN account to cover the checks you write, and the convenience of a TENPLAN account—the smart way to pay bills—is yours.

Firemen Here Kept Busy With 6 Fires Sunday

After battling eight hours early Sunday morning to put out a blazing oil derrick, Torrance firemen were called out to extinguish five more fires through the day.

The 135-foot wooden tower blazed like a torch at 12:35 a.m. and damage estimated at \$2,000 was done before firemen put it out.

The derrick, owned by Guy Kelly, was located at 227th st. and Pennsylvania ave. Cause of the fire was unknown.

Fire equipment was called out twice to put out a pile of burning lumber on an oil lease at 236th st. and Narbonne ave. The wood first ignited at 11:35 a.m. and rekindled in the afternoon.

Grass fires were extinguished on Columbia Steel Co. property, at King's Ranch, 4900 Torrance blvd., and at 219th st. and West-ern ave.

Cause of all the fires' was listed as unknown.

Reserve Officers Group Meets On Vanderlip Estate

Wartime yarns of the soldier, the sailor and the marine were the order of the day when the South Bay Chapter of the Reserve Officers' Association met at a beach party this week at the Cabana of the Vanderlip estate, near Portuguese Bend, Rancho Palos Verdes.

Thirty guests gathered before a huge fireplace in the Cabana to toast hot dogs, cavort thru several modern versions of charades, and pay occasional visits to the festive table. The officers' ladies took time out to formulate plans for a local Reserve Officers' Association ladies group while many "do you remember" filled the air as groups of officers recalled old friendships and wartime activities.

Guests present included Lt. and Mrs. John Shider and Lt. Commander and Mrs. Richard Capron of Hollywood Riviera; Major and Mrs. Glenn Hayes, Capt. and Mrs. Burton Moor, and Lt. and Mrs. Lee Gorsuch of Palos Verdes Estates; Lt. John Peet of Rancho Palos Verdes; Major Save Steshitch, Capt. and Mrs. Wilford D. McGlasson, and Capt. John A. Keldser of Hermosa Beach; Capt. and Mrs. Clyde Maddox of Redondo Beach; Capt. and Mrs. Stewart McDowell of Manhattan Beach, Lt. Tom Campbell of Santa Monica; and Miss Peggy Slater of San Pedro.

Regular meetings of the chapter are held on the third Tuesday evening of each month. Captain McGlasson, chapter president, said that the September meeting will be a dinner event in the South Bay area at a place to be announced later. All former officers of the Army, Navy and Marine Corps are invited to contact him for further information on Association activities.

LUBRICATING OLD CARS

Older cars should be lubricated more frequently than when they were new, contrary to the opinion of a majority of motorists. That is because wear has reduced the lubricant retaining ability of the various bushings and bearings of the chassis.

\$1,000,000 H.C. Paint Plant Construction Set

Ground breaking ceremonies are expected within two months for a \$1,000,000 paint factory to be located in Harbor City. The plant will employ an estimated 200 to 300 persons.

Consolidation of three factories to be built into one plant on a five-acre tract at Leonardo and Armand aves., was announced yesterday by the Leon Finch Paint Co. through its engineer W. N. Thorpe.

He said that he had obtained city council permission to vacate the two unused streets which had been selected as the site.

"First cost" estimates run between \$600,000 and \$700,000, he stated, and predicted that the total expenditure would exceed a million dollars.

Included in the manufacturing plant, Thorpe said, will be an office building and three plant buildings for making varnishes, paints and lacquers.

The site situated that the Harbor district location was considered preferable for the three Los Angeles factories due to the fact that the company intends to enter the exporting business.

Concrete Airport Over L.A. River is Proposed

In a dramatic move to assure Los Angeles of its rightful place as air capital of the world, Supervisor Leonard J. Roach announced a proposal to build a landing field in downtown Los Angeles.

This project recommends the covering of the Los Angeles river with a concrete runway beginning at First street and extending to Washington boulevard, a distance of two and one-half miles. A width of 600 feet can be obtained by depressing and building over the railroad tracks which run alongside the channel. It is proposed to eliminate the overhead bridges and carry the traffic under the river with wide traffic lanes.

Construction has been estimated at \$38,000,000 by the McNeil Construction Company. This includes replacing existing bridges with depressed highways. The structure would not interfere with the channel flow.

The location of the landing field within five minutes of the civic and business center of the city through use of underground shuttle tunnels would eliminate one of the chief drawbacks to air travel today, Roach explains.

The project includes an entirely new feature in airport design which greatly increases the field capacity and at the same time reduces to a minimum the possibility of accidents. Planes will land at one end of the field, discharge passengers and cargo, and take off from the center of the field. This eliminates the use of the same lanes for taking off and landing.

Service and storage of planes would be at the Municipal Airport. A large part of the traffic will be from feeder lines operating on regular schedules between other cities and towns and surrounding airports.

CABINET SHOP . . . Top. A. L. Barnett, proprietor of the new shop opening at 1115 Border Ave. More than 18 years of woodworking experience lie behind Barnett's new venture. Center, Fred Smith, graduate of Narbonne High School, who will assist Barnett in his shop. Bottom, Bill Lafferty, graduate of Torrance High School, who is also employed at the new shop.

Barnett To Open New Shop On Border Ave.

A. L. Barnett, 815 Cota ave., announced the opening this week of a new cabinet shop located at 1115 Border ave.

A resident of Torrance for over 10 years, Barnett has over 18 years of cabinet making experience behind him. Active in church and scouting work in this area, he was employed in the fine construction of wooden aircraft during the war.

Assisting Barnett in the new shop will be Fred Smith and Bill Lafferty.

Period IV—11:50 to 12:15.

—Lunch—12:15 to 1:00.
Period V—1:00 to 1:25.
Period VI—1:30 to 1:55.
Monday, Sept. 15, 1947, regular schedule.

Fish For County Swimming Pools Being Considered

Los Angeles County Parks and Recreation department was today instructed by the Board of Supervisors to work out an agreement with the State Fish and Game Department to stock county swimming pools with fish so that young people of the county might learn the art of fishing.

Chairman Raymond V. Darby, who proposed the innovation, informed the Board that this had been tried out in other parts of the county with very satisfactory results and believed that it could be inaugurated here.

Chairman Darby proposed a "Huck Finn Day" sponsored by the county which was immediately agreed to by the other members of the Board and then referred to Jack Wimmer, director of parks and recreation.

PENICILLIN USE ON DAIRY HERDS BRINGS WARNING

Los Angeles county dairymen are warned by Earl Maharg, assistant farm advisor, against treating all animals in a dairy herd with penicillin for mastitis control without first having the animals tested.

Maharg says wrong use of penicillin can result in the survival of some of the bacteria causing mastitis and that the surviving organisms may build up an immunity to the drug. In the mean time all symptoms may have disappeared in the cow. Later the bacteria may flare up again and then could be resistant to penicillin.

ately agreed to by the other members of the Board and then referred to Jack Wimmer, director of parks and recreation.
