**Dutch Engineer Studying Rigs At National**

Completing a three-week technical study at the Torrance works of the National Supply Company is Henrik Groeneveld, Dutch engineer with the Standard Vacuum Oil company of Holland.

A graduate of Delft university, the only technical university in Holland, Groeneveld flew to the U.S. by Constellation to inspect rigs and other equipment at the plant.

His study of engineering, requiring five years for completion, was interrupted by the German invasion of Holland during the war. He worked on a farm and was later imprisoned in a concentration camp for several months. He speaks several languages fluently, including English.

After his study in California, Groeneveld plans to go east for further research. His eventual destination is in the Netherlands East Indies.

**WILLIAM GREENE IN CHICAGO ON PURCHASE TRIP**

William Greene, proprietor of the Torrance Time Shop, left Sunday for Chicago on a buying tour.

He expects to return later this month.

**Right Guide**

This column is designated to give official VA answers to veterans' readjustment problems. Send questions to RIGHT GUIDE, 1830 Sepulveda Blvd., Los Angeles 25, California.

Public Law 338 provides that disabled veterans enrolled in educational institutions and on-the-job training under Public Law 16 who are not already receiving the minimum, will receive an increase in the amount of combined pension and subsistence allowance now being paid.

Veterans enrolled under Public Law 346 are not affected. Those enrolled under Public Law 16 whose current rating for service connected disability is less than 30 percent are not affected. Those who are already receiving a minimum amount allowed under the provisions of the act are not affected.

Under the new law, passed by the last session of Congress, the minimum combined compensation and subsistence payments will be \$115 for the 30 percent or higher disabled trainees without dependents, and \$135 for those with one dependent. In addition, after September 1 disabled trainees with 30 percent or higher ratings will receive \$20 for the first child and \$15 for each additional. The amount payable for dependent parents, \$15 per month, remains the same.

A review of all cases of veterans currently enrolled in education and on-the-job training under Public Law 16 is now being conducted. This review should be completed by Sept. 10. Any increase indicated will be reflected in the veteran's check for September.

Wives and children of disabled trainees, although they are called "dependents," are not under income restrictions as far as the additional amount of subsistence allowance is concerned. A wife may have an income and yet the veteran will draw the subsistence allowance for her as a dependent. Parents, however, are authorized as dependents because they are actually dependent upon the veteran for support.

The increases will be automatic where the veteran is found to be entitled and it is not necessary for veterans or their dependents to call or write the VA to receive them. In fact, officials of the Los Angeles VA regional finance office stated letters or phone calls might delay making the changes in the amounts of the checks.

Other veteran legislation passed at the last session of Congress included a 20 percent increase in amount of service connected pensions for veterans of the Civil and Spanish-American wars and in death compensation for their dependents.

Time was extended for the application for terminal leave pay for enlisted men of World War II from Sept. 3, 1947 to Sept. 3, 1948. Applications will continue to be made directly to the Army, Navy, Marine Corps and Coast Guard. Terminal leave pay applications are not handled by the Veterans Administration.

Another law extended the time in which veterans of World War II who lost, or lost the use of, one or both legs may make application for automobiles or other conveyances. The new deadline for such applications is now June 30, 1948.

**Movie To Feature First Expectant Mothers' Class**

For the first session of the expectant mothers' classes, Mrs. Mary Ulmer, public health nurse-instructor, has planned to have the Walt Disney technical film, "The Story of Menstruation," shown to these prospective mothers who register for the course at the Torrance health center, 2300 Carson street.

The classes are scheduled for every Wednesday afternoon from two to four o'clock, starting September 17. Other films are scheduled for showing later, and at the completion of the course certificates of attendance will be awarded those who have attended the entire series.

It is also planned to have special sessions for prospective fathers when the new "airplane" trouser fold for Junior or little missy will be explained to soon-to-be-fathers.

All prospective mothers in the area are invited to attend the regular sessions which will cover such subjects as mothers and babies' clothes and supplies, formula and bath demonstrations and nutrition.

**Recruiting For National Guard Asked By Truman**

Starting Sept. 16, officers and enlisted men of the 578th Engineer Combat Battalion, California National Guard, headquartered on Torrance, Municipal airport, will undertake a two months' recruiting drive aimed at adding 140 men to the unit. The recruiting drive was called for in a proclamation by President Truman, asking the 88,888 men be added to the National Guard of the United States between Sept. 16 and Nov. 16.

He asked that Army recruiters assist in the drive, since the National Guard is a component of the Army of the United States. According to Major R. L. Lewellen, recruiting officer for the 578th, the strength of the local battalion ultimately will be 600 officers and men equipped with trucks, tractors, graders, compressors and other road and well as small arms and heavy bridge building equipment as weapons to "fight their way" to positions where their engineering skill is needed. Enlisted men get free uniforms, both dress

**MINOR INJURY IN LOMITA AUTO COLLISION**

A collision Sunday on Lomita Boulevard, west of Frampton ave., caused minor injury to Doris Taylor, 1669 1/2 W. 251st st., Harbor City.

Cars driven by William M. Walkinshaw, 25, of Long Beach and Eugene Taylor, 21, of Harbor City collided about 6:40 p.m.

Doris Taylor, a passenger in the second vehicle, suffered an injured wrist.

and fatigue, and are paid for each training period in accordance with rank. A private gets \$2.50 per drill of two hours.

Many opportunities for advancement exist in the Torrance battalion for men who come in at once, since the unit still is less than 10 percent of its required strength, Major Lewellen said. Those who enlist at once will have the advantage over the hundreds who will comprise the battalion when it is built to full strength.

The 578th is commanded by Major Clyde Carpenter, and units will be assigned to Lomita, the South Bay area, Gardena and other nearby communities.

**Russell Explains El Camino J. C. Board Action**

The action of the Board of Trustees of the El Camino Junior College District in refusing all bids received for the reconditioning of the college's temporary buildings on the Alondra park campus has been explained in a statement by Robert Russell, president of the board.

On the advice of the County Superintendent of Schools, an emergency had been voted by the Board, giving them the right to negotiate a contract on a fixed basis. However, after this contract was negotiated, the County Counsel advised the Board that such a contract might not be entirely within the provisions of the code section which permitted the emergency to be voted.

"Had it been possible to negotiate such a contract, it would not only have saved the taxpayers' money, but it would have expedited the whole procedure, since this reconditioning work is of such a nature that changes might have been effected after

**PROUD PARENTS**

A son, Gerald Thomas, was born September 3 to Mr. and Mrs. Gerald B. Cross, Apt. 189, Normont Terrace. The baby, which was born in the San Pedro hospital, weighed 8 pounds, 2 ounces.

the contractor had begun his work," said Board President Russell.

The El Camino trustees met on Sept. 2 and rescinded its contract with R. H. De Sorda of the Coastal Construction Co. At the same special meeting, the board authorized the revising of specification and the advertising of bids for the third time.

**MANY VOLUNTARY LEASES WIN OKAY OF RENTAL OFFICE**

A total of 2,061 voluntary leases between landlords and tenants of the area coming within the jurisdiction of the Long Beach Rent office were filed during the first 60 days of operations under the Housing and Rent Act of 1947, which became effective on July 1, according to C. H. Blaylock of the Long Beach rent office. The leases filed during the 60 days represented approximately 2 percent of the total registered accommodations in the area.
