Warehouseman - Clerk or Foreman 11.80
Guard 10.16
Timekeeper 11.28

The surface waters of the Atlantic Ocean are saltier than those in corresponding regions of the Pacific. Although the reason for this is not yet known, evaporation is probably less in the Pacific because of lower wind velocity, and rainfall is greater than in the Atlantic.

The state of Kansas is one of America's thrifty and greatest producing states. It leads all others on the production of wheat, and produces many other farm products. It also ranks very high in mineral production, among its production being large quantities of oil, zinc, coal, natural gas and cement.

In addition to being noted for its bluegrass region with fine stock, Kentucky boasts of its tobacco production, which is the second largest in the nation. Corn is the state's second largest crop, its oil production is considerable and its manufacturing, transportation and financial interests are large.

Don't cut back to the main road surface sharply after running off on the road shoulder. It is the instinctive thing to do, but the wheel striking the road edge at a good speed is likely to twist the steering wheel out of the driver's hands. Pull back on the surface only after slowing down.

Color will identify the cause of the smoke coming from the exhaust of your car. A bluish or gray smoke is traceable to an excess of oil getting past the piston rings. The black smoke means there is too much gasoline in the mixture.

Pheasants and quail shooting was very good on the opening of the season in Kern County. Pheasant shooting was particularly good in Greenfield and Buena Vista Lake area, and many bears have been spotted in the Evans Flat and Jack Ranch area.
