A report on landscaping in Tract 10306, newly-developed tract near the Palms Verdes Estates boundary, was made. According to property owners in the tract, purchasers of homes were told at the time of their purchase that the developers would landscape the area, providing trees and other shrubs. That has not been done, they declared. The committee making the report advised those affected to purchase their own trees, since there is apparently no mean of laying responsibility for the landscaping to any company or person at this time.
