**GIRL SCOUTS CELEBRATE** . . . the 37th anniversary of their organization with a gala birthday party Saturday in Shrine Auditorium, sponsored by The May Co. Boarding the two Torrance Municipal busses were 151 Girl Scouts and their leaders from Torrance, Seaside, Perry, and Walteria representing Troops 698,

184, 610, 416 and 472. Featured acts on the show were presented by Jo Stafford, Dick Haymes, and Gary Moore. Transportation arrangements were completed by Keith Jones, of Kiwanis Youth committee and Torrance Recreation Department.

**43,000 IN NAVY DRILLS**  
During the past year, 43,000 Naval Air Reservists participated in regular drills or annual training.

**RADIO SHOW FEATURES EL CAMINO'S CHOIR**

The El Camino College Choir will be released at 8:30 Sunday evening March 20th. In addition to the program, John Nessley, El Camino College Student Body President recorded a brief statement concerning El Camino's progress.

**KEEP GLASS CLEAN**  
A clean windshield not only improves visibility but it is handy in other ways. For instance, when it rains there will be no abrasive clinging to it to scratch the glass when the windshield cleaner is brought into service. When on the long trip always keep the rear window clean. Fast driving creates a vacuum that pulls the dirt onto the back of the car. A dirty window prevents use of the rear-view mirror. Side windows should also be kept clean for best possible visibility.

**APPROVAL GIVEN**  
The city council has approved a recommendation of City Manager George Stevens that James W. Crowther, who successfully passed his Civil Service Examination, be appointed to serve his probationary term as equipment auto mechanic.

**SKY-HIGH**—Lalo Codona says things ain't what they usta be.

**HARBOR CITY MAN WAS ONCE FAMED AERIALIST**

If you tried to stop a body hurtling through the air at 63 miles-per-hour, you'd realize the kind of shock that will, sooner or later, tear down the shoulder muscles.

Lalo Codona, 53, operator of the A. Codona Co., brake and wheel aligning specialists at 1435 W. Pacific Coast Highway, used to catch his brother Alfredo while hanging by his legs from a "flying trapeze."

Codona, member of the world-famed "Flying Codonas," was the catching half of the team and Alfredo was the man who "flew through the air with the greatest of ease."

For more than 25 years the brothers toured the world with the first Barnum and Bailey Circus, and remained to achieve even greater fame with the Ringling Bros., Barnum and Bailey combined shows.

"Alfredo traveled at 63 miles-per-hour when he came out of his triple somersault!" Lalo said. "I had to direct the timing that made the trick possible and have my trapeze swinging in just the right spot after Alfredo did the stunt. Once I missed somebody or another, and the hurtling body of my brother caught me on the

chin, knocked me out, and caused me to fall. Alfredo had already landed in the net. I fell, unconscious, I hit right on top of him. We were both out of the show for a couple of weeks."

Circus life came easily to the brother, for both their parents and grandparents had followed the sawdust trail as aerialists. Born in Mexico, they drew their first breaths of life in a circus tent.

"We had a wonderful time with the shows, and toured all of America, Europe and other centers of population throughout the world."

The famous brothers also played in many motion pictures, mostly as doubles for Tarzan in the swinging-from-tree-to-tree routines.

**Cafeterias for All Units, Plan**

On the matter of school cafeterias, the Board's plans are set forth as follows in the last edition of "The Open Door," a Board publication:

All of the new elementary schools will include cafeterias in the master plan. These cafeterias will be limited to seating capacity at eating tables for 150 persons and will seat over 200 people as assembly rooms and can be used as community centers.

A kitchen is being planned for Torrance Elementary Auditorium to make a cafeteria out of the present auditorium. This will give the auditorium additional use. A preliminary plot plan has been presented to the Board.
