**Stitch in Time**

When you have a few minutes to sit down, gather up your sewing basket and look for all the available needles you can find. Thread these needles with thread of all colors in fairly long lengths, and keep them inserted in a piece of heavy paper in order to keep them handy and to keep the sewing basket tidy. You'll find it's easy not to put off repair work when you know that you don't have to start hunting for the needle and then tread it. Now you can buy an aluminum rack which will hold 42 spools of thread for quick selection.

**AT MOUNTAIN LAKE**
