

**Up Through the Ranks for Future City Chiefs**

In the future the chiefs of the Police and Fire Departments will be appointed from the ranks of the force by reason of action taken by the City Council Tuesday night.

Also included in the action was the fixing of the working shifts of firemen giving them 24 hours on and 24 hours off.

**Pedestrian Hit By Car Injured**

Goldie Irene Dudley, 41, of 2356 West 235th street, was hospitalized Wednesday for treatment of chest and head injuries after she was struck by a car driven by Joseph Corter Jr., 22, of the U. S. S. Navasota.

The accident occurred at Gramercy and Cabrillo avenues at 8:55 p.m. Corter was not held.

**Levy, Sears Picked to Lead New Chest Campaign**

Sam Levy, Levy Department Store owner; and Dean L. Sears, manager of the Torrance Branch of Bank of America, have been appointed general chairman and co-chairman of the 1949 Community Chest campaign in Torrance, Floyd Y. Snyder, announced this week.

Snyder, district commercial manager of Pacific Telephone and Telegraph, is chairman of the Harbor Area of the Greater Los Angeles Community Chest including Torrance, Lomita, Dominguez, Wilmington, Rolling Hills, Palms Verdes, Harbor City, San Pedro, and Gardena.

Top campaign leaders serving under the direction of Levy and Sears, with their campaign assignments, are as follows:

Residential and small business solicitation, B. T. Whitney, Whitney Finance Co., chairman; Albert Ewart, Bank of America, co-chairman; commerce and industry, "B", Russell Lund, Lund Co., chairman, and William Zoel

ler, accountant, co-chairman; public employees, Bob L. Haggard, realtor, chairman; prospects study committee, Charles V. Jones, Torrance Hardware, chairman, and Robert Deininger, Torrance National Bank, co-chairman.

Sears will head Commerce and Industry "A" which group includes firms with 50 or more employees.

Through the annual Chest campaign funds are raised to finance 159 Red Feather services throughout the Greater Los Angeles area for the coming year. Red Feather services located in Torrance include the Y.W.C.A., Girl Scouts, Veterans Service

**REQUEST TO PAVE STREETS GRANTED**

After the homeowners in the area agreed to install curbs and gutters, the City Council Tuesday night approved a request that the city pave certain sections of Date and El Dorado avenues.

The request made by Jack Long, 1222 Date avenue, who represented the homeowners, asked that Date avenue be paved from Torrance boulevard to El Dorado avenue and the same for El Dorado avenue from Crenshaw boulevard to Elm avenue.

Center, Family Service Association, and Catholic Welfare Bureau, all of which are housed at the Torrance Welfare Center, 1339 Post avenue; and Pueblo Center located at 2314 West 203rd street, Torrance is also served directly by many other Red Feather services such as Boy Scouts, Camp Fire Girls, and the Children's Hospital in Los Angeles which gave 471 days of care to Torrance youngsters last year.

To raise its proportionate share of the funds needed to keep these services operating for another year, a Torrance corps of 226 volunteers will be needed. Calls will be made at every home and place of business to give every resident an opportunity to contribute. Volunteers are already being signed up at the Torrance Community Chest office in the Chamber of Commerce building.

**Local Man's Ship Receives Award**

Lt. James W. Dowell, USN, of 1217 Arlington avenue, is attached to the escort aircraft carrier USS Rendova which has just been awarded the Battle Efficiency Pennant and "E" for her general excellence.

**Polio May Not be Crippling If Treatment Starts Quickly**

A mother's worries about her child getting sick are confined to no particular season. For instance, once winter is over and there is less chance of such things as colds and influenza, there are possibilities of diseases that seem to come with warmer weather. One of her greatest "vacation-time" fears is poliomyelitis, or infantile paralysis.

"Polio" strikes most frequently during the summer months, usually reaching its peak in late summer or early fall. The disease is believed to be caused by virus so small it cannot be seen under the ordinary microscope. It attacks nerve cells that control the muscles of the arms and legs. These muscles may become weakened and, in the more serious cases, complete paralysis of the limb may result.

Most people think polio always brings permanent crippling, but this is not the necessarily the case. More than half of those who get the disease never suffer weakened muscles or paralysis and, among those whose muscles are paralyzed, more than half recover without serious crippling.

Despite its popular name, "infantile paralysis," the disease strikes people of all ages, although most cases reported are in children.

We still know very little about preventing polio, but if the disease is occurring in your community there are some precautions that will help lessen the chances of contracting it. Fatigue makes people more susceptible to the paralyzed form of polio, so avoid exercising too hard or getting overtired. Sudden chill weakens a person's resistance to the disease, and we take chances when we stay too long in cold water or plunge into icy water after being in the hot sun. Swimming in dirty or pol-

luted water, or allowing children to wade in it, is also dangerous.

During a polio outbreak, keep children out of crowds, away from polio patients and from all other sick children, no matter how slight their illnesses might seem, since symptoms in an unparalyzed case or early symptoms in a paralyzed case may merely be considered a "cold" or "flu." Doctors advise postponing tonsil and adenoid operations during an epidemic since children are more vulnerable to a serious type of polio infection at the time of and for a while after such surgery.

General habits of cleanliness are important, too. Protect all food from flies. Garbage in the home and in the street should be kept covered and disposed of promptly. Remember to wash your hands before eating, to avoid carrying germs into the mouth.

While we have no specific preventive for polio, we have learned much about treating it. Prompt medical care often wards off possible crippling effects, so the important thing for a victim of polio is to get him under the care of a good doctor at once. Early symptoms of polio include headache, listlessness, fever, upset stomach or a cold. When a child shows any of these signs, call the doctor at once so that he can make the wisest decisions for the sick child's care and treatment as early as possible.

**Rotarians Told About MacArthur**

A vivid word picture of General Douglas MacArthur was presented to Torrance Rotarians last week by Dr. Stewart McClelland, one-time pastor of the Hollywood Presbyterian Church.

Dr. McClelland, whose address was titled "My Evening with MacArthur," gave his audience an insight into the personality of one of America's most colorful generals. The former director of the Pilgrimage Play presented a very optimistic viewpoint in regard to MacArthur's administration of Japan.

Dr. McClelland's appearance before the local club was arranged by John Steinbaugh, program chairman. W. T. "Harry" Thilston, president, presided. The Los Angeles Civic leader returned from his tour of Japan this June.

Club members attending this evening's meeting, which will begin at 6:30 p.m., will hear Charles McReynolds, Pacific Coast manager of Aviation Week Magazine. His address is entitled "Is There a Future for the Human Race?"

**LORD DELAWARE**

The state of Delaware was named in honor of Lord De La Ware.

**TVA DAMS**

The Tennessee Valley Authority now operates 18 dams.

Infantile paralysis, consult your family doctor, or get in touch with your local chapter of the National Foundation for Infantile Paralysis or write the national office of the Foundation, 120 Broadway, New York 5, New York.
