Warriors to Doff Wraps For Grid Session, Sept. 1

Coach Amby Schindler, El Camino College football mentor, declared this week that the 1949 edition of the Warriors will report for practice September 1 in accordance with the schedule permitted by the Metropolitan Conference. Physical examinations will be conducted on Tuesday and Wednesday, August 30 and 31 between the hours of 1 and 4:30 p.m. in the College Administration Building by College Physician Dr. C. F. Schmid.

Immediately following successful completion of physicals, football gear will be issued to all applicants. Practice schedule will begin at 2 p.m. on September 1. Coach Schindler reports that as a precautionary measure against any possibility of the slowing down of the date when permanent college football dressing facilities will be completed, temporary dressing and shower facilities are being made available in the college's new \$104,000 shop building. Although the contractors indicate that they plan completion of the college dressing and shower rooms by September 1, the precautionary measure of arranging for the stand-by facilities have been taken to guard against any loss of practice time.

The Warrior coach predicts a wide open scramble for team positions this year on the basis of his having had 20 graduating lettermen from the 1947 and 1948 squads. Doug Essick, former U.S.C. end has been added to the Warrior coaching staff and will assist Amby with his end and line coaching. John Morrow basketball mentor and former Ingle-

Clayton Bats Pill for Nats at .527 Clip

EARL CLAYTON
... Athlete of the Year?

Nomination of Earl Clayton, National Supply's stellar first baseman, for the figurative distinction of "Torrance's athlete of 1949" came last week from Spud Murphy, manager of the Nats softballers.

Although one of the best fielding first sackers in local Industrial League, Clayton's claim to fame came as a result of his talented work with the willow. In 27 games played this year, he has compiled a sensational .527 batting average; he has never struck out.

These feats can be especially appreciated, Murphy declared, when one stops to consider that in the local league hits are usually as scarce as tickets to the Rose Bowl game; it is unusual for the combined number of hits in a contest to exceed 10.

Hailed as one of the chief reasons why the Nationals are the current Industrial League title holders, Clayton lives at 1020 Crenshaw boulevard.

"Must be usin' Mobilgas"

For PERFORMANCE with ECONOMY, use the quality gasoline your car needs—Mobilgas Special or Mobilgas. These two gasolines blanket the requirements of every car on the road today. Both are perfectly balanced fuels, with superlative mileage and power features; both are made by the same patented refining process. Their essential difference is in anti-knock rating. With the help of your Mobilgas Dealer, you can quickly make your own test and find which of these 2 is best for you:

Mobilgas Special If you are the proud owner of one of the new extra-high-compression cars, or if, due to mechanical adjustments, your car knocks on the gasolines you are now using, you'll be money ahead by switching to Mobilgas Special (premium).

Mobilgas If your car is like most of those now in service, you will get mileage, power, and anti-knock—with outstanding economy—by using Mobilgas. If your car runs knock-free on Mobilgas, then be smart and pocket the difference in price between it and premium gasolines.
