Torrance Out-Growing Present Schools, Claimed

By J. HENRICH HULL
Superintendent of Schools

The growth of your community definitely affects present and future planning of the school system. Double sessions are unsound, as children cannot be given a well developed educational program in half a day. Education is comparable to industry in a sense, as you cannot get the same amount of production in four hours that you get in eight. Neither can our children get the same amount of education in a half day that they would ordinarily get in a full day of school. Therefore our problem resolves itself into one thing—that is to build more schools. The only way to achieve the acquisition of new sites and the building of new schools is to have the tax-payer approve bond issue to care for the needs of our children.

Two Walteria 4th Graders See Freedom Train

Two students from the 4th grade at Walteria accompanied by their teacher, Mrs. Isabelle Showler, visited the Freedom Train at Exposition Park on its recent visit. The class brought in press notices about the visit of the famous train. Discussions followed in which the students learned about the documents of our American heritage. Stories were written to determine which boy and girl would have the privilege of representing the school at the train. The stories were judged by several teachers and those written by Sally Marie Franklin and Tex Conger were chosen. Runners-up were Judith Ann Greenwood and Craig Edmon. The visitors to the train were able to bring back much information to share with their class and other classes, in regard to our heritage of freedom. Principal D. Boone Kirks said,

Have Your Own Home MOVIES WITH THE A-1 RENTAL PLAN!

Just come in and rent your projector and your choice of any one or more of hundreds of films we have ready for you—Cartoons, world parade, adventure, sports, comedy, westerns and many others including full color.

8 MM 200 ft. Reels, Rentals 50c
