

LOVE THAT DOG—Ex-War Dog Trainer Carl Eggleston relaxes with his own Doberman, "Duchess," left, and Mrs. Verdie Price's Shepherd, "Honey," right. (Photo by Arthur Willey.)

### 'Never Yell', Says Lomitan WAR DOG TRAINER NOW MAKES 'GOOD CITIZENS'

After training fierce dogs to attack a wartime enemy human on command, a Lomita canine educator has in peacetime turned to making faithful, obedient pets out of "man's best friend."

And, although it's a far cry from teaching a dog to tear a man to pieces on the command "Get Him!", Carl E. Eggleston, 25618 Narbonne avenue, insists that training a dog for combat and for the home are basically one and the same thing.

"For both purposes, obedience is the keynote. If a dog barks in combat, he betrays your position and someone gets killed unnecessarily; if he barks around the house, he's a darn nuisance and you'd better get rid of him," ex-pounds Eggleston, who's spent some 25 years of his 41 years indoctrinating canines with the civilized facts of life.

A salesman at Universal Furniture Company in Torrance, Eggleston plans to start classes in dog-training in September.

But he won't turn a finger to teach you dog anything—that's one of his basic dog-training tenets.

"If you pay someone to train your dog for you, you're just throwing money away. Above all, you must do the training yourself," says Eggleston, who teaches dog-owners, who in turn train their own dogs.

He scoffs at people who say, "Gee, I couldn't train a dog. It must take a world of patience."

"It's the easiest thing in the world to train a dog for obedience," insists the canine master.

"First you gotta decide which of two methods you're gonna use—fear, or correction and reward."

Eggleston doesn't believe in the fear method. "I'm never cruel to an animal. I reprimand only by tone of voice."

He illustrates this by taking a few swings in the direction of his Eggleston-trained Doberman, "Duchess." "Duchess" doesn't move, or even wince. "She doesn't even know what it means," says Eggleston.

"Another thing, I never raise my voice while training," he says, contending that it doesn't do anything but harm to shout at a dog when giving him a training command.

"The dog doesn't understand what you're saying. He can't tell the difference between a command and a reprimand of you shout at him. And don't worry about him hearing you. He can only hear about ten times as well as you can."

Eggleston teaches five basic tones of obedience beginning with "heel," which means that your dog will walk right by your side, turn when you do, and stop to sit down when you say "sit."

The other four are "sit," "down," and "come," which, when mastered by your dog, will give you complete control over the pooch.

The Lomita dog-trainer believes that training of dogs should start when they're about nine months old.

### Weather Cool But Tree Crops Not Affected

Comparatively cool weather through most of July kept crops from maturing at their usual time. The weather, however, had no detrimental effects on most tree or truck crops, according to Harold J. Ryan, agricultural commissioner, in a report on conditions in Los Angeles County.

Summarizing fruit crop conditions and prospects Ryan said that, as reported last month, prospects for the next avocado crop remain better than for the past several years as drop of small fruit has not been serious up to date.

One of the early stainless steels was a by-product of cannon research.

Attempts to make better cannon linings from steel containing chromium led to the discovery of chromium's remarkable property of rendering iron and steel rustless or stainless. During a laboratory investigation of these linings in 1913, the English metallurgist Harry Brearley observed their resistance to attack by various reagents.

Sensing a discovery of unusual importance Brearley, who died recently, suggested the use of the new steel for cutlery.

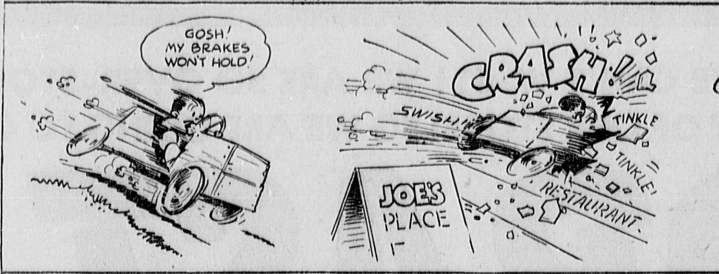

After years of research, knives made from steel containing about 12 percent chromium and 0.30 percent carbon were developed, which took and held a sharp edge and resisted corrosion. Additional research revealed that a tight self-healing protective film of chromium-iron oxide on the knife makes it "stainless."

When scratched, nicked, worn through or otherwise penetrated, a fresh protective film forms practically instantaneously.

Chromium is an important constituent of every stainless and heat resisting steel. It strengthens steel and increases its corrosion resistance.

Various combinations of any of 17 other elements may be present in modern stainless and heat resisting steels. These are aluminum, carbon, columbium, copper, iron, manganese, molybdenum, nickel, nitrogen, phosphorus, selenium, silicon, sulfur, titanium, tungsten, vanadium and zirconium. Not all of these are intentionally present in any individual stainless or heat resisting steel. But each of these elements in at least four of these elements and several series require six.

### Stainless Steel By-Product of Research on Cannon Barrels!

The use of stainless and heat resisting steels has recently been increasing rapidly according to the American Iron and Steel Institute. Last year production of stainless steel finished products set a record at 333,000 tons.

The creation of the modern stainless and heat resistant steels is connected with the long and intensive search for steels to withstand many kinds of corrosive attack, to retain sufficient strength over wide ranges of temperatures, and to permit fabrication of the steels into desired products.

One of the early stainless steels was a by-product of cannon research.

### Allowance for Disabled Vets Will Be Upped

J. G. Caldwell of the Veterans Service Center, said today that dependents of veterans with service connected disabilities rated 60 per cent or more in degree will receive additional compensation in the form of allowances under terms of a new law passed by the 80th Congress.

Increases should become effective September 1, 1948, Caldwell said, and added that instructions for applying for the benefits will be issued in the near future. Eligible for the increases are veterans of any war or peacetime service who served in the armed forces, have a service-connected disability of 60 per cent or more and have one or more dependents.

There are separate dependency allowance rates for disabilities incurred in wartime and peacetime service. He outlined the following plans it would apply to a totally disabled veteran. Disabilities of 60 per cent or more will receive proportionate amounts.

For a wife—wartime, \$21, peacetime, \$16.80; a wife and one child—wartime, \$35, peacetime, \$28; a wife and two children—wartime, \$45.50, peacetime, \$36.40; a wife with three or more children—wartime, \$56, peacetime, \$44.80.

In a case where there is no wife and one child, the rate will be, wartime, \$14, peacetime, \$11.20; two children—wartime, \$24.50, peacetime, \$19.60; three or more children—wartime, \$35, peacetime, \$28. Mr. Caldwell also pointed out that dependent parents have not been overlooked. For wartime they will receive \$17.50 each, peacetime, \$14 each.

Assistance in gathering such documentary evidence may be obtained at the Veterans Service Center located at 1339 Post avenue, Torrance.

REPORTER: And your brother, who was trying to get a government job, what is he doing?  
ENGLISHMAN: Nothing. He got the job.

### Public Notices

TORRANCE HERALD  
IN THE SUPERIOR COURT OF  
THE STATE OF CALIFORNIA  
IN AND FOR THE COUNTY  
OF LOS ANGELES

Action brought in the Superior Court of the County of Los Angeles, and Quiet Title Complaint filed in the Office of the Clerk of the Superior Court of said County.

SUMMONS  
Richard H. Ross and Chas. T. Rippey, Plaintiff,  
vs.  
Joseph Valenta, Defendant.  
THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO:  
Joseph Valenta, John Doe I to X Inc., Jane Doe I to X Inc., Doe & Co., I to X Inc., corporations, Richard Ross, I to X Inc., Trustee, Defendant. You are directed to appear in an action brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the County of Los Angeles, and to answer the Quiet Title Complaint, in and for the County of Los Angeles, or your appearance and answer as above required, the plaintiff will take judgment for any money damages demanded in the Quiet Title Complaint, as arising upon a contract, and any other relief demanded in the Quiet Title Complaint. Give your answer and seal of the Superior Court of the County of Los Angeles, State of California, this 4th day of March, 1948.

EARL LIPPOLD  
Notary Public in and for said County of Los Angeles, California.

APPEARANCE: A defendant appears in an action when he answers, demurs, or files a motion or written notice of his appearance, or otherwise gives notice of appearance for him. Sec. 1014, C.C.P.  
Answers or demurs must be in writing, in form pursuant to rule 61 of the California Rules of Court, and filed with the Clerk. CHAS. T. RIPPY  
Attorney for Plaintiff  
1331 Post Avenue  
Torrance, Calif.  
July 8, 1948, 23-August 5, 12, 19, 26, and Sept. 2.

#### CERTIFICATE OF BUSINESS

Fictitious Firm Name  
THE UNDERSIGNED do hereby certify that they are conducting a Retail Camera and Photo Service business at 1312 Sartre, City of Torrance, County of Los Angeles, State of California, and that the fictitious firm name of A-1 Photo Service, Inc. is composed of the following persons, whose names and addresses are as follows: to  
Hubert J. Gilmore, 1262 W. O'Farrell Ave., San Pedro, Calif.  
Daisy G. Gilmore, 1262 W. O'Farrell Ave., San Pedro, Calif.  
Henry W. Smith, 2109 E. 21st St., San Pedro, Calif.  
Evelyn F. Smith, 1209 W. 21st St., San Pedro, Calif.  
WITNESS my hand this 10th day of July, 1948.

HUBERT J. GILMORE  
DAISY G. GILMORE  
HENRY W. SMITH  
EVELYN F. SMITH  
STATE OF CALIFORNIA

#### COUNTY OF LOS ANGELES

ON THIS 10th day of July, A. D. 1948, before me, Birdie A. Werner, a Notary Public in and for said County and State, residing therein duly commissioned and sworn, personally appeared Hubert J. Gilmore, Daisy G. Gilmore, Henry W. Smith, and Evelyn F. Smith, known to me to be the persons whose names are subscribed to the foregoing instrument, and acknowledged to me that they executed the same.  
IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal the day and year in this certificate first above written. (SEAL)

BIRDIE A. WERNER  
Notary Public in and for said County and State.  
My Commission Expires March 15, 1951.  
July 20, Aug. 5, 12, 19.

#### NOTICE TO CREDITORS

No. 15019  
Estate of J. MARVIN BRAMHAM, deceased.  
Notice is hereby given by the undersigned executor of said last will and testament, and all persons having claims against, personally or by assignment, the estate of the deceased, to present them with the necessary vouchers, within six months after the first publication of this notice, to the said executor at the office of Chas. T. Rippey, 1331 Post Avenue, City of Torrance, County of Los Angeles, State of California, who said office is located at the place of business in all matters connected with said estate, or to file them with the necessary vouchers, within six months after the first publication of this notice, in the office of the Clerk of the Superior Court of the State of California, in and for the County of Los Angeles, Dated July 21, 1948.  
CHINA MULLER, Executor of the last will and testament of said deceased.  
CHAS. T. RIPPY, Attorney for Executor  
1331 Post Avenue  
Torrance, Calif.  
July 20, August 5, 12, 19.

### Nurses Heed Call for Aid

Registered nurses from as far away as Milwaukee have answered the Red Cross appeal for assistance to polio victims in Los Angeles General Hospital. This fact was disclosed this week by Miss M. Louise Floyd, director of nursing for Los Angeles Chapter.

At the request of the National Foundation for Infantile Paralysis, the Red Cross here was charged with the responsibility of recruiting 55 registered nurses for assignment in the polio wards at General Hospital.

Local residents who are former residents of Michigan are invited to attend an all-day reunion in Sycamore Grove Park Saturday, Aug. 14, with an old-fashioned picnic lunch at noon.

### Labor Study on Extension

Arbitration, mediation, employer-employee relations and allied problems will be dealt with in a special series of lectures on grievances and arbitration which the University of California Extension will open on Thursday evening, Sept. 16.
