

G. S. Fenn, 1418 Hickory ave., Torrance, is building a new six-room pumice block dwelling on Quailridge road, Rolling Hills, according to county building records.

Spark plugs, once the victim of carbon, now have a new enemy, overwork. The plug point becomes thin, gets red hot after a few minutes of use and causes serious misfiring.

Unfortunately, government bulletins and market conditions indicate it is reasonable to believe that prices will continue to rise equally as much in the next six months.

A few minutes with a pencil will show you the savings possible had you bought at the lower prices six months ago, and stored your purchases.

Would that have been possible and practical?

The answer to both is definitely yes. Hundreds have made big savings with Quality Market Frozen Food Lockers. Investigate now. The Quality Market Meat Department will, to the best of its ability, advise you accurately and honestly as to market trends . . . help you too to make substantial savings.
