EDUCATOR ADDRESSES FACULTIES

Dr. E. T. McSwain, dean, University College of Northwestern University, during a recent lecture to members of the faculties of Torrance schools urged more teacher-parent conferences as a means to better understand the child.

The well-known educator claimed that teachers see only the image of each student. Conferences between the teacher and the parent can complete that picture, he said. He contended that parents, too, only see part of their children and that these conferences can complete the picture for them also.

Despite the completion of additional ward space, the local hospital has been operating at capacity since early summer.

Members of the advisory committee include the dean of U.S.C. College of Medicine, president of the College of Medical Ev-
