# Baby yourself

ENJOY HOT WATER APLENTY...FASTER AND CHEAPER WITH GAS

If you don't have abundant hot water for every household use, stop and think. Has your family increased in size? Have you installed an automatic clothes washer or dishwasher? Each step up your use of hot water substantially. So for a constant hot water supply and real convenience, you may need a larger heater. Plan now to have oceans of hot water. For gas heats water three times faster and costs far less.

Here's minimum size AUTOMATIC GAS WATER HEATER your family needs:

Number Bathrooms	Number Bedrooms	Gallons Storage
1	1 or 2	30
1	3 or 4	40
2	2 or 3	40
2	4 or 5	50
3	3	50
3 or 4	4 or 5	75

YOU CAN OUTGROW A WATER HEATER, TOO!

Just as easily as a baby outgrows his shoes, so can your family's use of hot water gradually exceed the capacity of your present water heater. Study the chart at right. It tells the minimum size of automatic gas water heater you need in your home. Then talk to your dealer or Gas Company. You'll find that automatic gas water heaters cost less to buy, too!
