

New Course Designed For Industrial Workers

Industrial and technical workers who want to enter the field of instrumentation or who want to bring themselves up to date on the use of technical instruments will have an opportunity to learn fundamentals through a new course being offered at El Camino.

The 3-unit lecture and demonstration course on instruments of industry will be given Tuesday evening from 7 to 9.

The instrumentation course will emphasize the fundamentals of mechanics, heat, and electricity, with their application to specific types of instruments used in industry. Included will be measurements of pressure, temperature, acceleration, and stress and strain, as well as an introduction to a automatic recording equipment and electric and electronic circuits and instruments.

Arts and Crafts Program Expanded at Adult School

To provide an outlet for pent-up war tension, an expanded arts and crafts class, free to all adults regardless of residence, has been announced by Torrance School of Adult Education.

The cake decorating class has been divided into three sections—an advanced section will be held each Monday night at seven o'clock in room 112 of Torrance High School with the beginning session on Tuesday nights. The third cake decorating class will be held on Thursday nights at the North Torrance Elementary School.

The ceramics class is held in three different locations—on Monday and Thursday nights in room 201 of Torrance High School, Tuesday nights at the Seaside Elementary School, and Wednesday night at North Torrance Elementary School.

The china painting class, run in combination with ceramics, will be held each Thursday night at 6:45 at the High School. A Monday class in lampshades will be held at the Torrance Episcopal Church on Monday morning at 9, while the evening class will be held on Wednesday nights at the North Torrance Elementary School. The leather and copper classes will be held in three locations—at the High School on Tuesday nights, and at the Seaside Elementary and North Torrance Elementary Schools on Monday night.

The textile painting class, featuring new stencils, new designs and new processes will be held at the High School each Monday and Wednesday night at 7 o'clock.

Highlighting the opening of this arts and crafts expanded program will be a film and demonstration, open to the public, on color and design. This

George B. Gusman Joins 7th Armored Division

Recruit George B. Gusman, of Torrance, was recently assigned to the 7th Armored Division at Camp Roberts, California, where he will take his Army basic training.

Gusman, whose parents, Mr. and Mrs. Arthur Gusman, reside at 3613 Spencer street, in Torrance, has been assigned to "D" Company, of the 23rd Armored Infantry Battalion, a veteran combat unit of the European phase of World War II.

The 7th Armored Division, known as the "Lucky Seventh," was reorganized in 1942, then fought its way across Europe, meeting the Russian armies at the Elbe.

Showing will be given on Monday night, February 5 at 7:30 in room 108. Adults telephone Torrance 645 for further information, or enroll at the class.
