Child Care Centers Get \$1,800,000 Aid

In a recent bulletin addressed to the Torrance Unified School District, John R. Webber, supervisor, Child Care Centers, State of California Department of Education, stated that Governor Earl Warren has signed the child care bill, which carries an appropriation of \$1,800,000.

The money has just been appropriated out of the State Treasury for the administration and support of child care centers by the California State Department of Education for the period February 16, 1951 to June 30, 1951, inclusive.

The school district was asked by Webber to make a statement in writing of estimated expenditures including accrued vacation liabilities for the fiscal year July 1, 1950 through June 30, 1951. It was also requested that estimated income from parents' fees for the same period be submitted.
