## COTTON and CAPITAL...

...create a hundred-thousand jobs!

From the loom to the cotton and beyond, California cotton is big business. It takes a hundred-thousand people to grow and process California's yearly crop, so it isn't surprising that it takes a lot of money, too.

If you were to ask 100 cotton men where this money comes from, you'd hear Bank of America mentioned more often than you'd think. For in cotton—and just about anything else—

Bank of America matches "know-how" with the money to make it produce.

But lending money is only part of the bank's job—deposit services are important, too. Commercial checking accounts, Tenplan checking accounts, Life-Insured Savings, Thrift Club, Christmas Club and regular savings accounts—all serve the banking needs of Californians in more than 300 cities and towns.

Here is statewide branch banking in operation—a banking service that is possible only because of progressive policies, vast resources, and statewide branch facilities
