

# Kettler Kapers

By MRS. MILLIE WEST  
Lomita 3003-J

Next Monday being Labor Day, lots of "Kettlerites" will be planning picnics, trips, family get-togethers, and all sorts of interesting things, so don't forget to phone your news-Lomita 3003-J.

Recent house guest of Dr. and Mrs. Wm. E. Grubbs, 2329 Falena avenue, were the Clyde Ostlers, former residents of Kettler Knolls. The Ostlers enjoyed a busy weekend visiting their former neighbors and renewing old acquaintances. Mr. Ostler is a Chief Petty Officer in the Navy and is stationed in San Diego where they now reside.

The Circle 7 met last Wednesday at the home of Mrs. Carmen Neelsen, 2083 Reynosa drive. The girls spent the afternoon chatting, munching popcorn, and sewing for the Methodist Church bazaar which is to be held in the near future. For refreshments Carmen made a luscious banana cake which she served with hot coffee.

Glancing around Kettler I noticed that Mr. and Mrs. Bill Johnson, of 2126 Middlebrook road, had out of town visitors. Mr. and Mrs. Merle Petersen and their two children came from Salt Lake City to enjoy a pleasant five day visit at the Johnston home. Mrs. Petersen is Bill Johnston's sister. Right up the street at the Jerry Loys were Mr. and Mrs. James Loy, Jerry's brother and his wife of one week, taking a day off their honeymoon to drop in and say "Hi." Don Minor of Kathy Way once more his smiling self, since he received word that wife Vay

and daughter Judy would be "winging" their way home via T.W.A. Airlines Tuesday evening. Mrs. Gloria Hixson and son Ronnie also of Kathy Way have gone to Merced, Calif. to visit Gloria's mother who is recuperating from an operation. Way down on Walnut street there were visitors too. While vacationing in California Mr. and Mrs. Arthur Dunn, of Washington, D.C., stopped in to spend a day and night with their very good friend, Mrs. Thelma Setzer. That's all for now folks—See you next week. Hope you all have a happy holiday.

The Jones family returned home Saturday evening, hot and tired but happy. They spent a pleasant week up north viewing the beauty of Sequoia, the General Grant Grove, and Kings Canyon. Little Diane and Gordie were especially thrilled to see so many "reindeer" and squirrels. After resting a bit they left again Tuesday morning for a fishing trip at Ensenada. Accompanying them will be Virginia Jones's parents, Mr. and Mrs. O. M. Ebersold and two nephews from San Pedro.

There's been a happy reunion at the home of Mrs. Verita Brown, 2086 Middlebrook road. Husband, Chief Petty Officer Cecil Brown, is home from Japan and home to stay, although he will be subject to call for active naval duty at any time. Needed only to complete the reunion is son Duane who is stationed at Eniwetok but who hopes to get home soon on leave. We hope it won't be too long before the Brown family will all be together

## Letters To The Editor

Editor:  
The Torrance Herald  
There is a matter of grave importance to be decided by the residents of Torrance. The enthusiastic support of this responsibility will give to Torrance, an opportunity to expand as a planned, balanced, healthy city.

Our city has recently been subjected to a very systematic rezoning program. The undeveloped areas of Torrance are now specifically indicated so that industry, shopping areas, and homes may be placed in complete harmony with each other. A successful city must have a known proportion of homes—industry—shopping centers.

The residents of Torrance must endorse the Water Bond Issue and vote wholeheartedly for its adoption. Without the assurance of an adequate water supply, (which this bond issue provides) the City of Torrance faces a future of—  
"19 square miles of agricultural land interspersed with residential streets, struggling shopping areas and industrial islands without any pattern of progress."

Rezoning the city to protect all the interests which make up a modern city are useless unless we provide the vital-ingredient of life, WATER.

1. Without an adequate water supply, (and today there is none), industry will not expand in Torrance.
2. With out industry, the tax structure becomes the sole concern of the home owner. Industry is proud to carry the burden of reasonable taxes.
3. Without additional water supply, residential development will not be possible in the foreseeable future.
4. Without additional residential development no further shopping facilities can be assured.

This water bond issue which has been under study and preparation for the past two years is soon to be referred to the voters of Torrance for their consideration. May we all pledge our support, in the interest of, in the future of a greater TORRANCE.

George C. Powell

Editor,  
The Torrance Herald:

I'll just take a few minutes of your time, if you'll spare me that much. I'm writing this in all sincerity and not as a joke or anecdote in any way.

My home is in Torrance, or I should say was until I was called into the Army a while back, and now I find myself very lonely here in Korea.

I was just wondering if it would be possible to put my name in some small unused space in your paper along with a request for some nice young lady to drop me a line or two. Do you think that would be at all possible?

I'd like very much to write to some girls in Torrance, but I don't know how to contact them unless by this way. Would you editors of my hometown paper help me? My address is:

Pfc. Eddie Deringer, U. S. 56076306

Service Battery, 90th F. A. Bn.

again.

Little Stevie Davis, of 22916 Cabrillo avenue, had a truly happy birthday! Stevie was 3 years old Sunday, August the 19th, and enjoyed a family party at home, but the real fun time came Wednesday afternoon when he celebrated again as a guest of that popular television show for children, the Bill Stulla Parlor Party. Being on television is quite exciting but Stevie managed to eat his ice cream, drink his punch, and have a thoroughly happy time. P. S. I think Stevie's mother Mrs. Louise Davis had as much fun as Stevie did!

The Jerry Loys, of 2116 Middlebrook road, and the Herb Streits, of 1827 Marinette, both members of the Valkyrie Club, attended a house warming for Mr. and Mrs. Cable of Palos Verdes last Friday evening. Everyone danced, played lots of games, and enjoyed a lovely barbecue. "We had a wonderful time," remarked Jean Loy.

"Whew, I got her out of here just in time!" exclaimed Councilman Ed Karlow, of 1972 Middlebrook road. Ed was speaking of "Able Mabel" the much publicized Jaycee membership rabbit of course. The reason for his sigh of relief? "Able Mabel now numbers 11—she's had ten new little "Ables."

## To Break Ground For First New Church Building

Groundbreaking for the first units of the new Hamerton Tract Community Church has been scheduled for 2:30 p.m. next Sunday. It was announced this week.

At that time, the first shovel of earth will be turned by members of the church, and construction of the new building at the corner of Elliott avenue and Milton street will start soon afterwards.

Only part of the proposed building will be constructed now, according to members of the church funds, raised by a committee headed by J. W. Hight, will be sufficient to build one unit now, however. When more funds are available, the church plans to add to the completed portion.

Charles A. Bragg, who took over as pastor of the church last month, as well as other members of the church and friends are expected to gather for the ceremonies. Arrangements are being made to have a distinguished speaker on hand for the occasion.

## Revival Meet Underway In Waltheria

Revival services in the big tent at Pacific Coast highway and Hawthorne, Waltheria, are continuing each night, under the direction of the Rev. T. T. Ward, evangelist.

The meetings start at 7:30, and are scheduled to be held until September 16.

A number of neighboring churches are participating with special music and singing. The

## CABLE PATENT

First patent for the co-axial cable designed for television relay came in 1929, but it was not until 1936 that the first circuit from Philadelphia to New York was opened for test purposes.

## WATER CONTENT

Most foods eaten by man are 60 to 95 per cent water.

Rev. Fred Martin of the Waltheria Assembly of God leads the singing each evening.

The evangelist recently converted over 1000 people at a Farmersville, Calif., revival. It was reported.

## TWO CAPITALS

The Canadian capital of Ottawa has about 200,000 people in a 900-square mile area designated as the federal district. By comparison the District of Columbia has 800,000 in 69 square miles.

## SERVEL

Only one refrigerator makes ice and cold with no noise, no vibration, no hum of stopping and starting. That's the famous Servel. Servel stays silent, lasts longer because it hasn't a single moving part in its freezing system. It's marvelous, it's motorless. Prices as low as \$239.95.

GUARANTEED 10 YEARS
