You Can Make Your Own 'White Christmas'

Give your Christmas tree a snowy look! Dissolve 4 cups of soap flakes in 1 cup of warm water, beat with rotary beater until thick and fluffy. Spread immediately over the limbs of your tree with your hands and sprinkle with glistening artificial snow. Then add your decorations for the loveliest tree ever!

Use dry soap flakes around the base of your tree for a wonderfully snowy effect, sprinkling here and there with tinsel for a fresh-fallen snow look. Christmas figurines can be placed in the "soap-flake" snow to create your under-the-tree decor. This mixture gives a realistic snowy look—that won't melt and best of all can be used again (in the laundry tub).
