

Tartar Teen Talk

By MARIAN McDONALD

Only six more days to buy your tickets for the student body dance, "Blue Hawaii." This promises to be one of the best dances yet, and the most amazing thing about it is it's only \$1.25 per couple. The value is terrific, an evening at the YWCA from 7:30 to 11:30 dancing to the dreamy music of Fred Grey's orchestra, plus the added attraction of intermission entertainment. Boys, remember to wear those loud Hawaiian shirts and girls, look your best in peasant clothes.

Small price, simple attire, for the biggest and best dance Torrance has ever seen. So, Tartars, be sure you aren't the one who misses this gala affair; get your bid early.

Now, after this "commercial," we will be off, reporting on what's happening at THS. First off, I'd like to send out an SOS for any able-bodied person who sees and hears many things to give me a little help digging up news for this column. I had a big talk the other day with Dan Meyers, and he informed me, after much persuasion, that he would just love to report all

the interesting gossip he could find. Sally Hickman has also been helping. Come on, kids, lend a helping hand. I'm interested in writing about YOU.

It seems we had a bunch of musical-minded Tartars over the week-end. Especially those Farrah boys. Jerry was still talking about Stan Kerton Monday. Friday night Stan played at the Long Beach Municipal Auditorium. Tartars attending were Jimmy and Jerry Farrar, Gene Davis, Sid Staxrud, Tom Long, Jo An McVicar, Lorraine Schwenk and Don Cucci.

Sunday was Rhythm in Blues at the Olympic Auditorium where Big J. McNeely and many more jazz artists performed. Pat Fenton, Jimmy and Jerry Farrar, Sid Staxrud, Frank Blain, Faye Gossit and Jack Grubb attended.

"Anyone who slaps masking tape all over the walls just to keep up one little vester ought to be shot!" was the sentiment of Keith Jones and myself after a grueling J period with a wet sponge and a putty knife. Remember to get those posters okayed by Mrs. Morros or myself before putting them up.

A major crisis at Torrance! "The situation is deplorable," was the comment of many teachers — although some had been guilty of indulging. "But, they're so good," students wailed. What? I'm not making sense? Well, I'm talking about eating sunflower seeds in class. It seems floors were getting covered; sides of desks littered; trashcans full, drains clogged, and a continuous check, crunch, check, crunch heard in classes. After the supply in the cafeteria runs out there will be no more sunflower seed eating in the hallowed halls of THS.

ENAMEL BASE

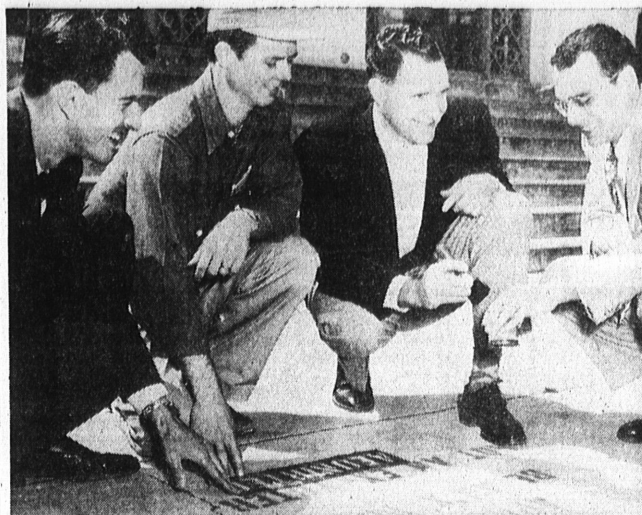

High-gloss, durable enamels suitable for both inside and outside use, are made by using mixtures of heat-treated linseed oil and elastic copal varnishes new formulae show.

Newcomers Warned of State Taxes

Newcomers to California were warned this week that they may be required to file state income tax returns.

Sounding the warning was Thomas H. Kuchel, chairman of the Franchise Tax Board, who advised that individuals who are in California for other than temporary or transitory purposes are considered to be residents of the state and are required to file returns if their net incomes for the year 1951 equal or exceed \$2000 if single or \$3000 if married.

Those who are uncertain of their residential status may have the situation clarified by visiting the office of the Franchise Tax Board at 306 State Building, Los Angeles.

VOTE GETTERS . . . Members of the Torrance Junior Chamber of Commerce have been busy painting up the town with the slogan "Be an 'X' Voter, Not An Ex-Voter" as part of their get-out-the-vote campaign for municipal elections April 8. Here in front of the City Hall are (left to right) Jim Wood, Dick Jensen, Joe Bay and Frank Dominguez Jr.

SUPPORT HAWAII

Both major political party platforms and almost 90 percent of the nation's newspaper editors call for statehood for Hawaii.

GRAPE SPECIES

Native species of wild grapes in the United States have been widely used in the development of new species and also primary root stocks.

TANNERS OILS

Some of the oils which tanners use in lubricating sole leathers, to increase its water resistance and flexibility, cost more per pound than butter.

Police Arrest Pair In Teen-Age Holdup

Two of the four teenage boys who reportedly held up a Redondo Beach ice-cream parlor, were nabbed shortly after the stickup by Torrance policemen Wednesday night.

Officer D. H. Cook and Sgt. Karl Friberg, acting on a telephone tip, nabbed the pair as they were parked at the Hot-N-Tot, popular Lomita drive-in restaurant, on Pacific Coast Hwy. The boys, whose names were not given, were apprehended with a live .38 Smith & Wesson handgun and a .38 Smith & Wesson revolver. They were taken to the Torrance Police Station and are being held.

POLICE ANNUAL ADS PHONY, OFFICERS SAY

If someone calls you on the phone for a solicitation for advertising in a Peace Officers Annual—play it cagey. Sheriff E. W. Biscailuz and Los Angeles Chief of Police W. H. Parker said Friday.

"Several complaints from businessmen have been received by law enforcement agencies concerning the 'high pressure' tactics and even threats used by these advertising salesmen over the phone.

"The County Peace Officers Association is not connected in any way with such an annual and recommends that persons contacted make a thorough investigation of the circumstances before investing," the law-enforcers said.

Tax Representative Sees 23 Thursdays

Twenty-three persons sought out the representative of the State Franchise Tax Board concerning their 1951 income tax forms here Thursday, Dale Isenberg, executive secretary of the Chamber of Commerce, reported.

IN WESTERN ZONE

Both Iceland and Greenland are in the western hemisphere.

AIR NEWS FROM NORTH AMERICAN

Another picture report of progress at North American Aviation on the vital job of strengthening your security in the skies

THEY PUT THE "SUNDAY PUNCH" IN AMERICA'S AIR ARM—These eight hard-hitting aircraft are all designed and built by North American. Mark them well, for they spell security in the skies for you. Upper left, the famous North American F-86 Sabre jet, holder of the world's official speed record. Next, the North American AJ-1 Savage, the Navy's new carrier-based long-range attack bomber. Third, the North American B-45 Tornado, America's first operational 4-jet bomber. Upper right, North American's

RB-45C, the fastest high-altitude reconnaissance bomber in the U.S. Lower left, the North American FJ-2 Fury, the Navy's newest carrier-based jet fighter. Next, the North American F-86D Sabre, the country's first one-man all-weather jet interceptor. Third, the A2J-1—the Navy's new turbo-prop long-range bomber, the first of its type. Lower right, the North American T-28 trainer—the plane that helps turn American flyers into the best pilots in the world.

NORTH AMERICAN CONSTANTLY INVESTS IN YOUR FUTURE—An example—North American's supersonic wind tunnel is the first of its type ever owned and operated by an aircraft company. Capable of producing air speeds up to 4000 mph, this extraordinary research tool enables North American to develop more efficient planes and missiles. These, in turn, help maintain U.S. air leadership for your security in the skies.

SUPPLIERS GIVE TRAINER A BRAKE—Outside suppliers contribute a large portion of each plane North American builds, much of it in parts like the T-28 brake controls shown here. This team of outside suppliers is an integral part of North American, and does \$15 million worth of business with the company every month, creating jobs and salaries throughout the whole community.

NORTH AMERICAN HAS BUILT MORE AIRPLANES THAN ANY OTHER COMPANY IN THE WORLD

NORTH AMERICAN AVIATION, INC.
