

WAVE BYE BYE TO BEDSPREAD BLUES!

Housewives saddened because once-fluffy chenille bedspreads have that bedraggled look can smile again.

They can make old bedspreads look good-as-new if they follow instructions of the American Institute of Laundering.

Secret of reviving chenille is in the drying, the Institute people say. After washing the fabric with a mild detergent, all the housewife needs to do is tumble or fluff-dry the spread, and it will regain its soft, fluffy appearance.

Textile experts also offer three points for housewives to remember when buying chenille spreads. To check the bedspread for quality and launderability, they say:

1. Be sure the muslin backing has at least 60 threads to the inch.
2. Check the color fastness. Cloth can be either dyed or vat-dyed, and vat dyeing gives better color fastness.
3. Examine embroidery stitches. If they are close together and neat, the spread is well made.
