President Lucille Stroh will contact the girls' counselor at the local high school to determine how many senior girls would be interested, then will appoint a committee to complete organization plans.

REDDY KILOWATT SAYS:
"count four...FOR KITE FLYING SAFETY!"

One reason kite flying is such a popular sport is that it's so easy. Everyone, young or old, can enjoy it. And what's more, anyone who can count to four can fly kites safely. That is, if you let each number remind you of one of the kite flying rules, as your friend Reddy Kilowatt is doing!

1 Fly your kites in an open field, away from electric power lines and other overhead obstructions.

2 Be sure the string is perfectly dry.

3 Never use wire, tinzel or metallic string.

4 If your kite catches in a power line, let go immediately. Don't pull! Phone the company owning the line and a lineman will get your kite for you.
